LONG RACE FOR AID FOR FREEZING CREW OF TOWBOAT

Along Treacherous River Bank Benjamin W. Hipple Sought Means of Rescue for Men on the Harry P. Jones.

CRUSHED BY ICE, CRAFT SANK NEAR GLENWOOD

The towboat Harry P. Jones, owned by the Monongahela River Consolidated Coal and Coke Company, sank in the Monongahela river, near Glenwood, at 4 o'clock yesterday morning. Fettered by ice the boat lies in 15 feet of water a helpless hulk. Through the heroism of Benjamin W. Hipple, the 12 men and two women in the Jones' crew were saved from icy graves.

With a heavy tow of loaded coal boats the steamer was backing cautiously down the stream, battling with the caked ice that obstructed its course. When opposite the Clyde coal landing, about a mile below Homestead, the force of the ice ripped away the woodwork in the bottom and stern of the craft.

Water poured in before the crew was apprised of the danger and the boat began to sink. The Jones listed to starboard and the furnaces were deluged. The pilot signaled to put the boat to shore, but this warning came too late. With a mighty jerk that severed its hawsers from its tow the Jones went to the bottom almost instantly.

BENJ. F. HIPPLE, Whose Efforts Saved Drowning Crew.

Aroused by Hissing Steam.

Members of the crew who were asleep were aroused by the hissing steam from the flooded boilers. In their night clothes the frightened men and women ran to the guard rail surrounding the cabin in time to save themselves from the swirl that engulfed the larboard side of the sinking steamer.

Ben Hipple, who lives in the boathouse at the Clyde coal landing, heard the crunching of the ice as the boat gave its final plunge and hastily left his bed to investigate the cause of the alarm.

He lit a lantern, and, running to the dock of his boat, saw the members of the crew hanging on wreckage. Calls for help rang in Hipple's ears as he ran to get his skiff, but found the little craft ice-bound. Rapid strokes with his ice pick failed to get it free. The men on the wreck shouted that their boat was going under water and that they would freeze.

A Cry of Encouragement.

"Hold on there. You'll not sink. I'll find a boat," was Hipple's encouraging reply. He hastened along the bank of the river in the hope of finding aid. It was still quite dark and for more than a mile he stumbled along the slippery bank.

While the frantic calls of the shipwrecked crew rang above the grinding of the ice, Hipple kept on in the apparently vain hope of finding help.

Finally a mile and a half below the scene of the wreck, he spied the towboat Tom Lysle lying at Irving's landing. She had steam up and some of her crew were sitting in her cabin.

Almost exhausted from his mad race Hipple sprang on board and aroused the captain. A few minutes later the boat was plowing her way up the river to the wreck. The half dozen men and women were rescued and returned to the landing.

The Jones was built about five years ago and was considered one of the stanchest craft on the river. Capt. F. M. Rodgers of the Jones says that the boat will be raised at once. She is lying on her starboard side and scarcely more than three feet of her hull is visible above the water.

While the Storm of Wrath Rages.

HOPE RENEWED FOR LIFE OF THE PRESIDENT'S SON

Condition Some Better, but Crisis of Malady Is Still to Come.

ALARMING SYMPTOMS MUST BE EXPECTED

[BY ASSOCIATED PRESS TO THE GAZETTE.]

GROTON, MASS., Feb. 11.—Reports from the sick room of Theodore Roosevelt, Jr., eldest son of the president, tended to show an improvement. At 8 o'clock tonight his condition was authoritatively stated to be better than it was at the same time last night.

The crisis of the disease is still to come and is looked for within the next 24 or 36 hours. The president and his wife both believe their son will meet this crisis in good condition, and, passing it successfully, will recover. In fact, the slight favorable turn in the disease today has greatly relieved the strain on both of them, and the day closed much more cheerfully than yesterday. Still, the reports issued through Mr. Cortelyou, secretary to the president, ran between hope and fear.

Night Worse Than Day.

The patient passed a hard night. In the morning he was reported as improved, although pleurisy in the right lung was mentioned. At 2:45 o'clock in the afternoon it was said the boy's temperature had risen, that it would probably remain high, and if anything, increase a little toward morning. The next report, at 6:30 in the evening, showed that notwithstanding the high temperature, the boy had more than held his own all day, and that his condition was favorable.

Mr. Courtlyou said today: "We want it distinctly understood that none of the bulletins should be taken as being encouraging, but as merely favorable, for the reason that unfavorable bulletins are expected through the next 24 hours."

Long Says Boy Is Better.

There was a cheery interview with Secretary of the Navy John D. Long, after a hurried visit of courtesy to his chief, in which he frankly said the boy was better. To confirm this, came the president's sudden appearance a little later in the afternoon at the new sporting dome, a recreation house built by Mr. Gardner adjoining his own mansion. The president was dressed in a suit of flannels and seemed ready for some exercise. He remained in the sunny building nearly two hours.

A telegram from Ambassador Paunceforte at Washington was received, conveying King Edward's expression of sympathy for the president.

ONE MAN DEAD AND TWO DYING FROM POISON

Italian Fruit Venders Found Writhing and Unconscious.

SICK MEN PUT THE BLAME ON DINNER

Surrounded by bananas and other tropical fruits, the dead body of Frank Cosdillo, an 18-year-old fruit vender, was found in the room of his parents at No. 5128 Penn avenue, yesterday afternoon. On the floor, writhing and unconscious, were the dead youth's father, Angostino Cosdisto, and another Italian named Jim Pollzo. The men were thought at first to have been overcome by natural gas, but it now looks as though they were poisoned.

The discovery was not made until a friend of the men from Homewood called at the store about 2 o'clock and the absence of the men was noticed. The body was taken to the morgue, and the two unconscious men to the West Penn hospital, where they are now in a serious condition and not expected to live.

The Cosdistos occupied two rooms in the building, renting them from Mrs. Michael Fray, who lives in the rear of the building. In one room they conduct a fruit store and the other is occupied as a living apartment. There are two cots in the latter room and a gas stove. The gas supply for this stove was turned on, when the men were found and the stove was not lighted.

After Dr. Wilmot Collins had investigated the case he said that he did not believe that the men had died from asphyxiation, but from poison, as not enough gas was escaping from the stove to cause death. He said that he had questioned Pollzo at the hospital and the latter had told him that the illness had come from their dinner. The physician believes that the gas was accidentally turned off while the men were in a dazed condition from the action of the poison.

Part of the dinner was still on the table when the men were found. It consisted of macaroni and cheese. There was also upon the table a half-filled bottle of wine, an empty flask that had contained whisky, and a cough remedy, with directions in Italian on the label. These things were turned over to the police. The matter is being investigated.

HARMERVILLE VISITED BY FIRE THIS MORNING

Flames Start in the Red Raven Company's Warehouse.

LOSS TO SMALL TOWN MAY REACH $70,000

Two Violent Explosions Destroyed Building and the Flames Spread.

A FAMILY'S CLOSE CALL

[SPECIAL TELEGRAM TO THE GAZETTE.]

HARMERVILLE, PA., Feb. 12.—Harmerville, a village on the West Penn railroad, about 14 miles from Allegheny, had a close call from being totally destroyed from fire early this morning, and as it was the property loss will exceed $75,000.

Shortly after midnight three workmen at the Duquesne Distributing Company discovered fire in the front part of the building. The main building, where the men were at work, was a four-story brick structure and was used as a bottling house by the distributing company. The front part of the first floor is occupied as an office room, and in the basement just below are located the furnaces. It is supposed the fire started down in the furnace room and had eaten its way up through the office floor before being discovered.

Mad Dash for Safety.

William Shippelon and two other workmen noticed the smoke coming from the office and ran to discover the cause. Just as they reached the scene the entire room burst into flames and the men made a dash for the rear exit.

Shippelon and his family, consisting of his wife and four small children, occupied the front part of the second story as living quarters, and Shippelon, realizing their danger, dashed up the stairs and began to arouse his family. By the time they were awake nearly the entire first floor was in flames. The father and mother, each taking two children, after securing blankets to protect themselves, rushed to the rear stairway, and after halting their way through the flames and smoke succeeded in making their escape.

Two Terrific Explosions.

Within 15 minutes after the fire was discovered the entire building, one of the largest in the town, was in flames. A strong west wind was blowing at the time and the building fell an easy prey to the fury of the flames. Employes of the West Penn railroad, which runs within 100 yards of the burning building, came to the rescue and attempted to check the fire. While the men were within a short distance from the building two terrific explosions took place, and the building fell as if it had been blown apart by dynamite. This was the two massive gas ranges blowing up. They were used in the distilling and packing rooms and both exploded within a second of each other. Many of the men who had gathered out-side had narrow escapes, and several frame houses 200 feet distance were damaged by flying bricks.

Explosion Felt Across the River.

The explosion was plainly felt in Hutchinson, across the river from Harmerville, and it served to arouse the residents of both towns, who came flocking to the scene of the conflagration. The Pittsburgh side of the river was lined with spectators watching the fire.

The fire spread from the brick building to a three-story frame building occupied by the same company. This building proved to be very combustible and in half an hour was a mass of glowing embers.

The First M. E. Church of Harmerville, located just to the east of the frame building, was the next to catch fire. Citizens and workmen on the railroad had been using every effort to protect it by fighting with buckets, as the town had no volunteer fire department.

The Church Destroyed.

But the strong wind was master and shortly after the frame building had caught flying sparks and large pieces of burning wood had ignited the house of worship, and it was completely destroyed.

The general store and postoffice, the proprietor of which is John Thompson, also ignited and was almost completely destroyed, only the four bare walls being left standing. The entire stock and much matter in the building was destroyed.

The rapidity with which the flames spread was remarkable, and the citizens who were fighting to protect their homes were repeatedly driven back by the huge tongues of flames which were dashed against them by the wind.

Ice House Burned Down.

A large frame building, extending over 100 feet in length, and used as an ice house by the Duquesne Distributing Company, also caught fire and was destroyed. A curious feature in this part of the fire is that the plant had just been filled with

ENGLAND NOW HAS FORMED ALLIANCE WITH WILY JAPAN

Believed to Be a Warning to Russia, and Is Another Phase in Struggle for Markets.

THE SECRET IS WELL GUARDED

[SPECIAL TELEGRAM TO THE GAZETTE.]

LONDON, Feb. 11.—An important parliamentary paper was issued tonight giving the terms of a practical alliance between Great Britain and Japan for the preservation of China and Korea. The paper covers a dispatch sent by Lord Lansdowne, the secretary of state for foreign affairs, January 30, to the British minister at Tokio, Sir Claude M. MacDonald, and comprises a signed copy of the agreement.

In explanation the paper says the agreement may be regarded as an outcome of the events of the past two years. Throughout the Boxer trouble Great Britain and Japan had been in close and uninterrupted communication, and actuated by similar views.

Their Policies Identical.

The discovery that their far eastern policies were identical resulted in such party to the agreement expressing its desire that their common policy and aggression in an international contract of binding validity.

Lord Lansdowne further says that the British government was largely influenced in entering upon this important contract by the conviction that it contains no provisions which can be regarded as aggressive or self-seeking. He says it is considered merely as a measure of precaution, and that it in no way threatens the present position or legitimate interests of other powers.

These ministers so well kept the secret that the paper, issued after parliament had adjourned for the night, announcing the first important alliance between a western and a yellow, or Asian race, comes as a startling surprise to the public. It is regarded as a direct move against Russia, and to explain the abandonment of the colony of Wei-Hai-Wei.

The Daily Mail in an editorial claims authority to assert that the relations between Great Britain and Russia have become regrettably impaired in consequence of Muscovite duplicity with respect to the future of Manchuria. The Daily Mail says: "This will shortly be proved by a decidedly clever move. Russia has undoubtedly annexed the entire trade of Manchuria to the exclusion of all other powers, and the protests of Great Britain, Japan and the United States have not availed."

Text of the Agreement.

The following are the terms of the agreement signed by London January 30:

The governments of Great Britain and Japan, animated solely by a desire to maintain the status quo and general peace in the extreme east, and being especially interested in maintaining the independence and territorial integrity of China and Korea, and in securing equal opportunities in those countries for the commerce and industry of all nations, hereby agree as follows:

Article I.—The high contracting parties, having mutually recognized the independence of China and Korea, declare themselves to be entirely uninfluenced by any aggressive tendencies in either country.

Would Interpose Safeguards.

Having in view, however, their especial interests, of which those of Great Britain relate principally to China, while Japan, in addition to the interests she possesses in China, is interested in a peculiar degree, politically as well as commercially and industrially, in Korea, the contracting companies that it will be admissible for them to take such measures as may be indispensable to enable them to safeguard those interests if those interests are threatened either by the aggressive action of any other power, or by disturbances arising in China or Korea, necessitating the intervention of either of the contracting parties for the protection of the lives and property of its subjects.

Neutrality in War.

Article 3.—If either Great Britain or Japan, in defense of their respective interests as above described, should become involved in a war with another power, the other contracting party will maintain strict neutrality and use its efforts to prevent other powers from joining in the hostilities against its ally.

Article 4.—If in the above event, any other power or powers should join in hostilities against that ally, the other contracting party will come to its assistance and will conduct war in common, and make peace by mutual agreement with it.

Article 5.—The contracting parties agree that neither of them will without consulting the others, enter into separate arrangements with another power to the prejudice of the interests above described.

Immediately in Effect.

Article 6.—Whenever in the opinion of either Great Britain or Japan, the above-mentioned interests are jeopardized, the two governments will communicate with one another fully and frankly.

Article 7.—The conclusion of the present agreement shall immediately consult in force for five years, and be binding for a year after either party denounces it. But if, when the date fixed for the expiration of the agreement arrives, either party thereto is actually engaged in war, the alliance shall, ipso facto, continue until peace is concluded.

OPINIONS OF POLITICAL CHIEFS ON THE ELECTION

Guthrie and Crawford Predict Victory for Larkin—J. O. Brown Not So Sure.

"The feeling against the machine is 25 per cent stronger than it was in 1896," said George W. Guthrie, chairman of the Democratic city committee, yesterday. "I have never seen the people so interested in an election as they are in this one. Fraud alone can defeat us, but even should our opponents attempt to win by such means, I am satisfied that we have every point so well guarded that the perpetration of fraud will be impossible. The election of John S. Larkin is certain."

"The defeat of the machine is certain," says Chairman Charles Crawford of the Citizens party. "Our reports from every ward in the city are extremely gratifying. The people are aroused as they never were before. There is every indication that the vote polled next Tuesday will greatly exceed the ballot for president in 1900. With the genius at the polls, there can be but one result. John S. Larkin will be elected controller and there will be many solid machine councilmen returned."

"A grand Republican victory next Tuesday," is the prediction of J. O. Brown, chairman of the machine city committee. He declines to give figures a week in advance of the battle. Neither does he care to state why there will be a "grand victory."

Vote against the use of public patronage to corrupt and intimidate voters

VOTERS IN THE FOURTEENTH TO SUFFER MOST

One-Fourth of the Held-Up Tax Receipts Belong There.

JAMES J. BOOTH STILL SURE HE WILL WIN

Decision on Advisability of Seeking Legal Redress to Be Reached Today.

BIG MEETING PLANNED

About 1,000 of the tax receipts that Delinquent Tax Collector Samuel P. Gleim and County Treasurer Thomas S. Bredin are withholding belong to citizens of the Fourteenth ward. This is one-fourth of the entire number. Those with this number of votes taken from James J. Booth, he says that he will defeat the machine and get a seat in select council.

Senator William Flinn has declared that Booth must be defeated, no matter what the cost may be. It is also figured that booth would not stand a vote of 1,000 votes.

"I have my fight well," said Mr. Booth yesterday. "The entire Citizens ticket in the Fourteenth ward will be elected. Flinn is doing everything possible to keep me out of council, but even the withholding of 1,000 tax receipts will not be sufficient to kill off the anti-machine forces in my ward. Neither will the attempt to coerce merchants bring the results expected."

Receipts Still Held Up

The tax receipts presented by the assessors are now being held up by the district collector allowed by the county commissioners. Corner shot off his mail, but there were a great many receipts also from Treasurer Bredin. In answer there to the requests of the electors must be written on the additional tax book in the commissioner's office.

In two days it has been possible to get 85 names put in. The clerks say that the books are missing or some other excuse given. Whether legal steps will be taken to secure the slips will be decided today.

Controller Joseph E. Lewis is hopeful for votes in his ward, the Thirty-second. Machine workings are being made from hour to hour to secure a complimentary vote for Lewis on the ground that the home ward should give him a good majority.

Success Not Always Attained.

Many of the residents are saying that he is all right as a controller, and that Machine workings are being made from hour to hour to secure a complimentary vote for Lewis on the ground that the home ward should give him a good majority.

Success Not Always Attained.

Many of the residents are saying that he is all right as a controller, and that Machine workings are being made from hour to hour to secure a complimentary vote for Lewis on the ground that the home ward should give him a good majority.

To carry the Eleventh ward, the machine has announced that it must leave the big end of the Democratic vote. Yesterday there was a conference at Third avenue headquarters participated in by Arch Murdoch and Thomas McClure, the bosses of the ward, and Harry Meeting and about a dozen other machine heelers of the Eleventh ward.

Bait for Plumbers.

The machine has been using an assistant plumbing inspectorship as a bait to secure votes in many wards of the city. Whenever a plumber is found who is working an active interest for the Citizens ticket he is offered this job. Of course delivery is after February 19, in every instance the plums has been refused. Two of the latest to be offered the plum are George Rodgers and T. J. Fagan.

Citizens party canvassers and workmen are busily employed at the Fifth avenue headquarters every day. Most of the men have performed the duties before and are very familiar with the election laws. Several Tuesday the most will be so well trained that it will be difficult for the opposition to trick them.

Protection for Payroll Men.

They are interested to prevent the payroll men from being forced to take a chair into the booth with them to check their ballot.

Chairman Crawford says that all election officers will be instructed to count the vote of the Democrats and Citizens party separately. This will be another check.

The citizens of the Nineteenth ward will hold a rousing meeting at Liberty avenue and Seventeenth tonight. It is expected that this will be one of the largest gatherings of the campaign. Speeches will be made by Daniel J. Sage, Robert M. Reynolds, R. H. Douglas, George H. Stuart and Marcus Chancellors.

The Rev. Dr. D. H. Geissenhainer, pastor of the Grant Street German Evangelical Lutheran church, was the speaker of the Citizens party rally meeting yesterday at Fifth avenue headquarters.

Commandment Its Theme.

His subject was, "Thou shalt Not Steal." He treated the theme in relation to corporate operations and municipal administration. There were over 300 people present.

Col. A. K. McClure, who is in Pittsburgh to attend the Lincoln's day banquet under the auspices of the city association tonight, may be one of the speakers at the monday rally at Citizens headquarters. W. B. Rodgers is down for a speech and an effort will be made to have Colonel McClure talk on municipal reform. A committee of citizens will attend the banquet tonight and the invitation to the Citizens and Democratic standing to be held Saturday night at Old City hall. The pro citizens who have been asked to be present as vice presidents have all sent letters consenting to take part in the big rally. W. B. Rodgers and George W. Guthrie will be the speakers.

Many Indorsements.

A list of the labor organizations that have indorsed the Citizens movement was received at Citizens headquarters yesterday, and includes the following: Bridge and Structural Iron Workers, Window Glass Workers, Typographical Union, Painters and Decorators, Knights of Labor, Order of Railroad Conductors, Brotherhood of Railroad Trainmen, Sheet Metal Workers, Bricklayers, Journeymen Plumbers and Steamfitters, Slate and Tile Roofers, Ornamental Iron Workers, Metallic Lathers, Electrical Workers, Local No. 5, Electrical Workers, Local No. 14, Stonecutters, Teamsters, Horseshoers, Marble Cutters and Setters, Elevator Constructors, Machinists, Sockers, Paperhangers.

Under the auspices of the various labor organizations a rally will be held Monday evening. Prominent members of the Citizens and Democratic parties will be invited to attend.

Fourteenth Ward Meeting.

The Citizens party of the Fourteenth ward will hold a meeting in Soho school tomorrow night. The speakers will be W. J. Wilkins, Joseph Williamson, C. F. Kelley.

REPEATERS ARE COMING HERE TO AID THE MACHINE

Avowed Representatives of Pittsburgh Ring Securing "Ballot Experts" in Philadelphia.

PROTECTION IS PROMISED THEM

By CHESTER D. POTTER.
Staff Correspondent.

PHILADELPHIA, PA., Feb. 11.—Persons claiming to be representatives of the Stone-Flinn machine have solicited the services of Quaker city ballot experts, men known locally as "repeaters," is the information that was today given The Gazette correspondent by a man whose experience makes him an authority upon the art of promoting majorities not in keeping with the surface trend of public sentiment. My informant said:

"I do not know how many of the boys will go to Pittsburgh. There will be nothing doing' here election day, and they need the money, but they want to be sure of getting away after they have done their work. The terms offered, I understand, are satisfactory, and police protection is promised, but it's a question whether the 'gang' can make good its promise of protection. I hear that there is a big reward offered for 'repeaters,' and it looks a bit risky. In Pittsburgh, you know, there are only a few wards in which it is safe to do any work and the chances are greater for that reason.

"Those attending to the matter say there are thousands of dead men's names and others who have moved away on the assessors' books that tax receipts will be furnished for, and in case of a challenge, men are ready to vouch for the 'repeater.' Some of the boys are in Pittsburgh now looking over the ground. If they report favorably there will be quite a bunch go from here."

After some further comment my informant concluded with this interesting prediction:

"Which ever way it goes, Pittsburgh will be a wide-open town after election; sporting men have been given this assurance. They are doing all they can to help the machine. If the machine wins it will grant privileges to those who are now contributing to its campaign fund. If it loses it will 'make hay' while the recorder appointed by the governor remains in office."

NO PUBLIC OPINION PARTY.

Philadelphia Judge Nullifies Its Nomination Papers.

PHILADELPHIA, PA., Feb. 11.—Judge Pennypacker, in common pleas court today sustained the objection to the nomination papers of the "Public Opinion party from Tuberculosis and the Public Opinion party," which decision prevents the party from having a column of the official ballot. The matter came up on objections by the Democratic and Municipal League parties to the certificates of nomination of City Solicitor Kinsey as a candidate for re-election and John M. Patterson and James C. Johnson for magistrates on the Public Opinion party.

The objectors argued that the new party was organized purely for political purposes and was composed of Republicans. This was denied by counsel for the new organization, who claimed it was an endeavor to purify politics in this city.

University Gets Two Gifts.

WOOSTER, O., Feb. 11.—[Special.]—Mrs. N. F. McCormick of Chicago today gave $5,000 to the fund for rebuilding the University of Wooster. A check for $25 has also been received from Chinese Minister Wu Ting Fang.

MANY BUILDINGS ARE SET ON FIRE IN ALTOONA, PA.

Seven Homes and Stables Are Ablaze Within Three Hours, and Arson Is Suspected.

ONE BOY ARRESTED ON SUSPICION

[SPECIAL TELEGRAM TO THE GAZETTE.]

ALTOONA, PA., Feb. 11.—The residents here were greatly disturbed this evening by persistent efforts of incendiaries to destroy this city by fire. There were seven conflagrations reported between 7:30 and 10:30 o'clock. The flames consumed stables, dwelling houses, a business establishment and hotel property. Only the activity of the fire department prevented great destruction of property and probable loss of many lives. The feeling among the citizens tonight is one of great anxiety and momentary expectation of further fires.

Most of the fires started in the vicinity of Eleventh avenue, the principal business thoroughfare of the city. The first blaze was discovered to be in the store of Silverman Brothers. The rear part of the establishment was badly gutted, entailing a loss of $2,500. Closely following this blaze were the burning of the stables of Dr. J. H. Hogue, W. C. Brennecke and George Sloan, which were completely destroyed.

Two dwelling house fires came next in quick succession, but were extinguished before the flames had an opportunity to gain much headway.

The last alarm was caused by fire being found to be spreading rapidly at the stable and livery of the Clarendon hotel, owned by Newton Crum. The building burned to the ground and badly scorched the rear section of the hotel. Shortly after the fire at the properties of Newton Crum had been reported the police made an arrest. Stephen Yeager, aged 19, of this city, who was discharged from the industrial reformatory at Huntingdon about three months ago was found under a stable in the neighborhood of where the fires occurred. He pretended to be drunk. He is thought to have had two companions who have not yet been caught. It is suspected that Yeager and his alleged accomplices are responsible for the fires.

The total loss of the conflagration may reach $10,000.

NO WEDDING FRILLS.

To Escape Them a Baltimore Couple Run Away for Quieter Nuptials. A Sister in Pittsburgh.

NEW YORK, Feb. 11.—(Special.)—"May and I were married tonight. Letter will follow."

She who was Miss May Davis, a Baltimore belle, and her husband, John Crouse, triumphantly telegraphed this message to their families there tonight. It was the first they knew of the romantic escape from an elaborate wedding at home. It was supposed that they would be wedded in grand style soon after Lent in St. Ignatius church, Baltimore, of which both were members. This plan suited neither Miss Davis nor Mr. Crouse. Accompanied by two New York friends, who alone shared their secret, Miss Davis and her fiance went to St. Stephen's church in this city, and the Rev. Father Cotton, the pastor, performed the ceremony.

Mrs. Crouse has a sister who is Mrs. Howard B. Clark of Pittsburgh.

In common pleas court No. 2 yesterday Attorney C. A. O'Brien, representing L. S. Lewis, filed objection to the certificate of nomination of James Hamilton, a Democrat, as a candidate on the Republican ticket for select council in the Fifth ward.

Editor Pittsburgh Gazette:

Can you inform the voters of the Second ward how James W. Platt can be a candidate for select council on the Republican ticket when he is not a resident of the ward, having lived over the saloon in Fifth avenue, between Wood and Market streets, which is in the Third ward. I also would like to know how Thomas H. Thorn can be a candidate for council from the Twenty-third ward, while he is holding a position in the postoffice, when the ripper bill expressly states that no person holding a city, county, state or national position shall be eligible to a member of the city councils. By answering the above you will confer a favor on a number of voters and a

STALWART REPUBLICAN.

Explicit Denials Made.

This letter was received yesterday. Investigation by The Gazette resulted in explicit denials of the implied charges. Mr. Platt said:

"I have lived in the Second ward for 32 years. I have never voted in any other ward and I want to say that I am as regular a voter as there is in it. Because I conduct my business in the Third ward is no reason why I should not be a qualified voter in the Second ward, and it is there that I vote and there that I propose to be elected to council."

Mr. Platt says that at the present time he lives in the Monongahela house, where he has kept a room for a long time. His opponents declare that his real residence is over his place of business in Fifth avenue, and they are unwilling to accept his excuse for appearing as machine candidate for select council.

Thomas H. Thorn's Case.

Thomas H. Thorn, who has been cashier of the Pittsburgh postoffice under Postmaster George L. Holliday is preparing to obey the law as laid down by the new charter act. Under the provisions of the act he can serve until his term expires. He said yesterday:

"I understand perfectly that I cannot serve in the postoffice and in select council too. I value my seat in council more highly than I do my position with the government, and on that account I have made arrangements to resign from the government employ before the end of this month. You may say for me that whether I am elected or not I will be out of the postoffice before March 1. I have already made arrangements to enter another business entirely outside of politics."

The Republicans of the Twelfth ward held a well-attended meeting in the Springfield school building last night. William M. Peckham in his address declared the administrations of A. M. Brown and J. O. Brown as recorder, and contended that the past experience in Pittsburgh with reform parties should encourage support for the Republican organization. Addresses were also made by George M. Hosack, A. C. Sidin and John A. Reed.

Big Sixth Ward Meeting.

The largest political meeting ever held in the Sixth ward was held last night in the Pittsburgh Dancing academy, No. 906 Fifth avenue, under the auspices of the Citizens' party. Over 400 voters were present and the enthusiasm was at high pitch throughout the evening. Peter J. Imes was chairman.

The principal address was made by George W. Guthrie. In the course of his remarks he charged that when Booth & Flinn controlled the asphalt paving business of the city all the streets were paved with that material. Now that there is competition he declared that Ligonier block was being used because the contracting firm still had a monopoly of it.

George H. Stengel, U. G. Vogan, Representative John P. McTighe, James M. Guffey and Dr. J. P. Shaw also made addresses.

William M. Benham made the principal address at a well attended meeting of Twenty-first ward Republicans last night. Other speakers were G. C. Kennedy, A. A. Niles, G. W. Hunter and W. Clark.

Arch Mackrell, Dr. A. J. Barchfield and George M. Hosack were the speakers at a Republican meeting in the Thirteenth ward last night.

Colored voters of the Seventh ward last night organized a club and enrolled 150 members. The officers elected were: James E. Mallery, president; W. H. Hunter, vice president; Clarence Harris, recording secretary; John Rolls, financial secretary, and Marshall Ruff, sergeant-at-arms.

T. W. PHILLIPS' EXPLAINS.

He Says That He Was Not a Minority but a Supplementary Report.

WASHINGTON, D. C., Feb. 11.—(Special.)—The attention of the Hon. T. W. Phillips, of the United States industrial commission, was called to the statement of William Rockefeller of the Standard Oil Company growing out of Mr. Phillips' official deduction from evidence before the commission, that trusts crush competition. Mr. Phillips says his report was not a minority report but a supplemental report, in which the other commissioners were not asked to join. He admits that he at one time took stock of the Standard Oil Company at 47½ part payment for oil property and sold it at an average price of 102. He says he had been asked to retain the stock and met pressure with the company, but refused to trade if this was made a condition, and it was not insisted on. Mr. Phillips concludes:

"Mr. Rockefeller's own statement as to what I would have made on a $40,000 investment in their stock, in about 10 years, namely: $2,415,000 had I retained it, shows the trust's unjust and unfair profits, which could only have been realized by levying tribute upon the producer and extorting from the consumer."

DISPUTED LAND DYED WITH BLOOD OF A WATCHMAN

Chicago Lake Front the Scene of Fight With Winchesters.

SQUATTERS' SHANTY USED AS FORTRESS

From It a Storm of Bullets Was Directed at Wounded Man's Comrade.

POLICE STOP CONFLICT

[BY ASSOCIATED PRESS TO THE GAZETTE.]

CHICAGO, Feb. 11.—During a fight with Winchester rifles this evening between the followers of rival claimants to property lying along the Lake Shore drive, the most aristocratic boulevard in Chicago, Frank Kirk, a watchman for one of the claimants, was shot through the head, sustaining a mortal wound.

The property in dispute consists of made land lying east of the Lake Shore drive and between it and Lake Michigan. Capt. George W. Streeter, who has for many years been a thorn in the side of North Side property owners because of his propensity to settle on vacant ground and then claim in the courts the rights of a squatter, has erected several small shanties upon this ground and claims that inasmuch as it was not originally included in the government surveys of the state of Illinois, it does not belong to the state, is public property, open to settlement.

Streeter's Strange Claim.

He claims to be the first settler and calls the ground "The District of Lake Michigan," and denies that the officials of the city of Chicago or the state of Illinois have any rights upon it.

Between Streeter and his men and the watchmen employed by the property owners along the Lake Shore drive, there have been frequent fights. Tonight Henry Cooper, a lawyer who has been active in his opposition to Streeter, accompanied by Policeman O'Malley, went upon the ground of the "district" and was attacked by Streeter, who knocked him down with the butt of a revolver. Several of Streeter's followers covered O'Malley with their weapons and he was ordered to leave or be shot.

Pitched Battle Breaks Out.

Shortly after Cooper and O'Malley had left the ground a pitched battle broke but between three of Streeter's followers, William McManners, William Blockie and John Hoeldtke, and two watchmen employed by Cooper, Frank Kirk and Samuel Portorous. Kirk and Portorous were standing just outside a small shanty of their own and one of the first shots fired struck Kirk in the top of the head. Portorous entered the shanty and returned the fire of the Streeter mu with a Winchester.

A riot call was hastily sent to the East Chicago avenue police station and a wagon filled with officers under the command of Capt. Revere was sent on the run toward the place. When the officers arrived Kirk's body lay in the snow outside his shanty, while from the window Portorous kept up a steady fire upon the three men in the other house, who were returning his fire with all the speed with which they could work their rifles.

Police Capture Belligerents.

The firing ceased as the police appeared and a cordon of officers was at once thrown around the shanty in which McManners, Blockie and Hoeldtke were. They barricaded the door and threatened to kill the first officer who approached. Headed by Capt. Revere a squad of policemen began to batter in the door while the others stood waiting with drawn revolvers for the first shot from within. Because of the entreaties of Mrs. McManners, who had been inside the cottage throughout the fight, her husband decided not to resist the officers, and the door was opened before the police had broken it down. The three men and Mrs. McManners were at once placed under arrest and taken to the police station.

Capt. Streeter Surrenders.

Returning to the building in a short time the officers found that Streeter had barricaded the house once more. He was summoned to surrender, and after some parley gave himself up. When he came out of the house he carried a rifle and four revolvers. He claims that he was not on the ground when the fight was in progress. McManners, Blockie and Hoeldtke claim that the first shot was fired by Kirk, and that he was shot when they returned the fire. This is denied by Portorous, who claims that the other side fired the opening shot. All persons living in the "District of Lake Michigan" were placed under arrest pending the death or recovery of Kirk. At the hospital to which he was taken it was announced that there was no chance for his recovery.

In the immediate neighborhood of the scene of tonight's fight a number of Chicago's most prominent men reside, among them being ex-United States Senator Farwell, O. W. Fuller, Franklin MacVeagh and Potter Palmer.

Kirk died at the Passavant Memorial hospital tonight without regaining consciousness.

NEW BOARD OF EDUCATION.

Organization Was Effected Last Night—Dispute Over Southside High School Property.

At a meeting of the Central Board of Education last night the old board adjourned sine die and the new board held its first meeting. The reports of the committees were heard by the old board.

The committee appointed to investigate the need of additional property for the South Side high school and to inquire into the value of the property offered the board reported that Mr. C. I. Shannon made an amendment to his first offer and would sell his property for $57,760 on the same terms as those in his first offer. The committee recommended that not over $45,000 be paid for the property.

A minority report, signed by John H. McElroy, stated that the $45,000 was too high and advised that not over $35,000 be expended for the property, basing his opinion on the value of other properties in the neighborhood. Objections were made to receiving the report of the committee by Charles J. Peddler, who said the committee had not properly performed its duty, failing to make a thorough investigation. The question was turned over to the new board.

William Holdick acted as temporary chairman and John McKain as secretary in the formation of the new board. The reorganization resulted in the election of all the old officers: President, W. H. McKelvey; secretary, Charles Reisfar, Jr.; assistant secretary, M. W. Lewis. Secretary Reisfar was authorized to appoint a clerk. H. T. Aufderheide, the present incumbent, will receive the appointment.

OWES HIS STEP TO HIS COLONEL

SENATORS ALSO TOOK ACTIVE INTEREST IN CAPT. H. J. WATSON.

Early Confirmation of His Appointment to the Artillery Service Is Expected. Excellent Record of Beaver Falls Officer Both at Home and in Philippines.

[SPECIAL TELEGRAM TO THE GAZETTE.]

WASHINGTON, Feb. 11.—Capt. Harry J. Watson of Beaver Falls, Pa., owes his appointment as a first lieutenant of artillery to State Treasurer James E. Barnett and Senators Quay and Penrose. Barnett was Watson's lieutenant colonel during his excellent service in the Philippines. Later he was colonel.

Senator Quay was particularly interested in the case and when he found last fall that there were a number of vacant lieutenancies he had Capt. Watson designated for examination.

With his record in the Philippines to aid him Capt. Watson passed the examination and yesterday he was appointed. His appointment reached the senate late in the day and was referred to the committee on military affairs.

As the senate made no confirmation today Lieut. Watson was not confirmed, but it is believed he will be as soon as Senator Penrose is favorable.

Capt. Watson is commander of Company B, Tenth infantry. He is one of the best-known officers in the regiment.

Since boyhood he has worn the blue of the state, but he made his best record during the campaign of his regiment in the Philippines. He came back to Pennsylvania with the sobriquet "One Strap."

For years before the Spanish war he was indefatigable in making marksmen for the Tenth infantry, and the teams representing the regiment at the state shoots at Mt. Gretna were always put in his charge by Col. Hawkins. No officer in the guard has more friends than Capt. Watson. His appointment will give general satisfaction throughout the division.

SOFFEL MAY BE KEPT AS WARDEN OF THE JAIL

Popular Movement Started to Petition Prison Board Not to Accept His Resignation.

The resignation of Peter K. Soffel as warden of the Allegheny county jail may not be accepted by the prison board. A movement is well under way to petition the board for his retention. Many very prominent men are interested in the movement and it is expected to assume important proportions. Mr. Soffel is aware of the matter. He said, considering it, yesterday:

"I have been overwhelmed with letters and personal interviews upon this subject from people all over the county and even from the entire western section of the state. I am grateful for the feeling of confidence and sympathy expressed by these people, many of whom are unknown to me.

"I tendered my resignation because I felt it was my duty under the circumstances to do so. In the several years I held the position of warden of the county jail the prison board has never failed to express its confidence in my administration and to compliment me upon the management of all which was entrusted to my charge, and the terrible affair which has occurred is doubtless quite as great a shock to them as it is to me."

Attorney Richard B. Scandrett visited Mrs. Soffel at the Butler County General hospital yesterday morning and returned last evening. He said that he had talked over matters relating to the case with Mrs. Soffel, but that he could not say any more on the subject. He said he had made no effort in Butler to give bail for Mrs. Soffel, as when the proper time came she would be released on bail, which would be fixed by the court in this county. Referring to the letters received by Mrs. Soffel at the hospital, and which are now in his possession, he said they were simply letters of sympathy from people all over the country and had no bearing on the case whatever, and he declined to permit them to be published.

Harry Biddle, the brother of Edward and Jack Biddle, went to police headquarters and to the county jail yesterday and obtained possession of their effects. At the former place he was given a silver watch, some jewelry trinkets, a knife and some stuff taken from their rooms which was not identified. At the jail the warden delivered to him three bundles and two trunks containing wearing apparel they had claimed as their own.

A staff correspondent of The Gazette at Butler telegraphs that after her attorney left her Mrs. Soffel was feeling much better than she has for many days. There was a marked improvement in her condition tonight.

To the annoyance of the attending physicians, Mrs. Soffel continues to retard her improvement by worrying herself about her friends being unable to enter bail for her in Butler county, she lives in terror of being taken back to Pittsburgh as a prisoner. Her physicians say that if she continues to fret her life will be endangered.

PAINTERS IN CONVENTION.

National Association Met in Turner Hall Last Night and Discussed Important Questions.

The eighteenth annual convention of the National Association of Master House Painters and Decorators, which opened yesterday at Turner hall, No. 1017 Forbes street, seated 172 delegates. With other members and wives and members of the families of delegates there were about 250 others watching the proceedings yesterday. A discussion in relation to apprentices showed that the sense of the convention was that apprentices should only be taken at 17 years of age or older and when they have at least a common school education to serve four years and be declared journeymen only with certificates from the officers of the master house painters and decorators. The limit of the journeymen that only one apprentice be employed for five journeymen was discussed with disfavor, but no action taken.

The delegations from Richmond, Va., Boston and St. Louis are contesting for the next convention, St. Louis being most favored by reason of the exposition that is to be held there next year. Near the close of the meeting yesterday, William A. Baxter of Hartford, Conn., read an interesting paper on "Wall Papers and Hangings: Their Uses and Abuses." William H. Andrews of New York, president of the National Paint and Varnish association, addressed the meeting.

CANNOT AGREE ON A BANK RECEIVER

COUNTY OFFICIALS OBJECT TO THE UNION TRUST COMPANY.

Depositors of City Savings Bank of Detroit Hope Certified Checks Will Be Declared Illegal—Frank C. Andrews Talks for Publication.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

DETROIT, Feb. 11.—A receiver will be appointed by Judge Donovan tomorrow morning for the wrecked City Savings bank. At a hearing this afternoon in the chancery court on the appointment of a receiver the county officers and the local board of education opposed the appointment of the Union Trust Company of this city on the ground that officers of the Union Trust Company were interested in the banks which hold the $902,000 worth of over-certified checks drawn by Frank C. Andrews, former vice president of the City Savings bank. Judge Donovan reserved his decision until tomorrow.

The depositors and stockholders of the ruined bank are hoping that the $902,000 worth of checks certified by the cashier will be declared illegal on the ground that they were certified without the knowledge of the directors. If this contention is sustained that amount will be added to the assets of the bank.

F. C. Andrews was interviewed this afternoon for the first time since the City bank closed its doors.

"I have not a penny. I am ruined," said he. "If they would only give me a chance and let me pull out everybody would get his money. I've got lots of equities and other things that I haven't turned over to them yet, but I will do so as soon as they will listen to me. I've made all the money for the bank; now why don't they let me get them out of the hole? The railroad concession alone is sufficient to pay for every cent the City Savings bank owes. My troubles began with the drop in Amalgamated and accumulated as the market went down.

"These criminal proceedings are all right; but if the fellows think they can get their money by putting me behind the bars for a year, where I can get a rest, I am satisfied."

CREED STATEMENT WON'T BE FINISHED THIS WEEK

Revision Committee Will Have to Meet Later in the Year to Complete the Paper.

[SPECIAL TELEGRAM TO THE GAZETTE.]

PHILADELPHIA, Feb. 11.—The Presbyterian creed revision committee will end its session in this city not later than Friday. The Rev. Dr. William Henry Roberts, the committee's secretary, made this declaration tonight. He explained that while at least three more long sessions will be held, the committee cannot complete its work at this time. This, it is understood, will require another meeting before the meeting of the next general assembly in New York, in May.

Much work was accomplished today. Two of the 16 articles that are to form the brief statement of doctrine for popular use have been considered. Only one was finished, however. This is article II. on "God, the Supreme Being." The other article, on "The Eternal Purpose," which has to do with God's plan for the universe, will be deliberated upon again tomorrow morning. During last week's session article I. on "The Revelation and the Rule of Faith" was completed.

When the creed revision committee met in Washington last December each one of the 16 articles in the brief statement were drawn up in a tentative manner. It is probable, a member of the committee said today, that they all will be considerably revised before they are finally submitted to the general assembly.

Many Teams Dropped Out of the Race Yesterday.

NEW YORK, Feb. 11.—At 8 o'clock tonight the leaders in the six-day walking match at Madison Square garden were 86 miles ahead of the individual division. There were many withdrawals during the day. The score of the ten leading teams at 9 o'clock tonight was:

Hegelman and Cavanaugh, 281 miles 1 lap; Shelton and Guerrero, 270 miles 4 laps; Golden and Trace, 266 miles 6 laps; Fahey and Methus, 250 miles 3 laps; Davis and Carrol, 255 miles 7 laps; Glick and Howarth, 249 miles 3 laps; Feeny and Feeney, 240 miles 2 laps; Heer and Heer, 234 miles 4 laps; Dean and Campbell, 231 miles 1 lap; Fallon and Harrington, 229 miles 5 laps.

MORMONS STILL TEACH DOCTRINE OF POLYGAMY

Evidence Was Collected by Ministers' Alliance of Salt Lake City, Utah.

A CAMPAIGN DOCUMENT

Will Be Used in Furthering the Cause of the Anti-Polygamy Amedment to the Constitution—Church Paper Denies Its Accuracy.

[SPECIAL TELEGRAM TO THE GAZETTE.]

SALT LAKE, UTAH, Feb. 11.—The ministerial alliance of Salt Lake has unanimously adopted the report of the committee of that organization appointed to investigate and report on the alleged practice and teaching of polygamy by the Mormons at the present time. This report is to be used as a petition for the passage of a constitutional amendment prohibiting polygamy, and will be sent to the judiciary committees of congress.

The document is the result of the appointment of a committee to investigate the reports of the continued practice of polygamy. The ministers assert that the evidence is in such shape that it can be produced in court if necessary. Besides being sent to the judiciary committee of congress, the document, it is said, is to be extensively circulated in the east to further the campaign of the anti-polygamy amendment to the constitution.

Purposes of Colonization.

The report, after quoting a number of Mormon leaders in favor of the practice of polygamy, and giving the dates of the same, recalls at some length the colonization schemes of the church, which, according to the committee's report, have a twofold purpose, viz.: To enable the Mormons to practice polygamy, "where they will be free from the scrutiny of their gentile neighbors," and to secure the balance of political power in the sparsely settled states of the west, thus blocking the way of any proposed hostile national legislation. The report sums up as follows:

What the Report Shows.

The returns coming from persons whose reliability can in every case be vouched for by members of this body show the following, considered proof positive of the present:

First—Polygamous cohabitation as evidenced by the birth of children or the acknowledgment of parties concerned or concurrent testimony of credible witnesses by affidavits of these, is proved to continue in multiplied instances in Salt Lake City, Logan, Brigham City, Provo, Payson, Smithfield, American Fork, Price, Sandy, Tooele and elsewhere in Utah, and also in Paris and Montpelier, in Idaho.

Second—That plural marriages have been contracted since the church manifesto was issued is shown by returns giving names of parties in several of the above-mentioned places, the date of the said plural marriage having come to a marriageable age as early as 1890, the date of the document.

Third—That the Mormon authorities continue to publicly teach and insist upon the rightfulness of polygamy is abundantly proved by public utterances of high officials.

An Utterance of Joseph Smith.

Among the specific statements by church leaders on the questions dwelt on in the report is the following:

"Joseph F. Smith, formerly chief counselor to President Snow, and president of the church, said in 1899, while dedicating a meeting house at Payson: 'Take care of your polygamous wives. We do not care for Uncle Sam now.'"

The News, the official organ of the Mormon church, denounces the report of the Ministerial association as a mass of misrepresentations, built on a number of stories, "many of them grossly false; most of them purposely exaggerated, and the whole related to a very small portion of the population of this state and of the Mormon part of it."

O'ROURKE'S SECRET OUT.

The Great Trainer Put His Faith in Nerves.

ENDURANCE HE WANTED!

The ablest manager of professional athletes in the world, Thomas O'Rourke of New York city, writing to the proprietors of Paine's Celery Compound on January 11, said:

"One of the most important features in the training of an athlete is to invigorate his nervous system, and nothing ever takes the place of Paine's Celery Compound to accomplish this. It facilitates getting a man in prime condition. In my experience in handling athletes I have never found anything equal to it."

This from a man of whom the most wonderful champion in the world said, when one of Mr. O'Rourke's pupils had won the world's championship: "The secret of O'Rourke's success I cannot understand. Wonderful endurance and an inexhaustible supply of nerve force discomfits the men he coaches from their opponents in every battle."

For the past 11 years Mr. O'Rourke has been recognized as the greatest trainer in the world. While he was coaching George Dixon that young athlete was the

THOMAS F. O'ROURKE.

world's champion. Sharkey, who was at first a rough-and-tumble giant, under O'Rourke's training developed into an even-tempered, handy, strong, rugged boxer.

The above unsolicited words from Mr. O'Rourke, who, by the way, has been the owner of the Broadway Athletic Club, the Lenox Club, the Coney Island Club and Royals Golf Club, and who is known to be one of the finest gentlemen among the devotees of the manly art, tell the whole story. He found in Paine's Celery Compound nature's food for the nerves.

While this remedy has effected thousands of cures among those who are sick, and has restored to healthy life innumerable men and women whose nervous systems have been shattered, those who were suffering from the symptoms of the beginning of a deep-rooted impairment of the nervous system—it is worth noting that even in those exhausting contests where absolutely perfect nerves are preeminently needed, this remedy has also been found equally as beneficial in repairing the exhaustion due to the high training.

If such men, who require above everything else—above muscles (which cannot develop without good nerves); above courage, which no man with weak nerves ever had—it requires above everything else perfect nerves—if such men have found it necessary to feed the nerves and brain with the food nature requires—it is good proof that this greatest of all remedies, the discovery of one of America's wisest professors, accomplishes all that is claimed for it.

Every man or woman whose nervous system is not in perfect condition will find that this remedy will make it so. No other remedy in the world was ever so universally acknowledged by physicians and all those who have manly and womanly development in hand to be so perfectly adapted to cases of failing health and lagging vitality.

The Principal Feature of this Wednesday Store Day is the Showing of New Black Silks.

Thousands of women are already at work on their Spring and Summer dresses. The simpler materials are easily developed into charming dresses. It is only a question of pattern and a touch here and there of ingenious ornamentation. This store is full of new materials for home sewing for the coming Spring and Summer.

But when it comes to the handsome dress of black silk—home sewing is another matter, unless a seamstress is employed.

However, whether the dress is to be made at home or by a skilled dressmaker, the sale of Black Silks today will have great interest for all women.

We have already given detailed quotations and this morning, for brevity, give only a summary.

Black Taffetas, from 42c up to $3 a yard.
Fancy Black Taffetas, from $1 to $2.50 a yard.
Open Work Taffetas, from 75c to $1.50 a yard.
Black Louisines, from 65c to $1.50 a yard.

Black Pongee, from 75c to $1.50 a yard.
Black Fancy Armure Brilliant, from $1.50 to $2.50 a yard.
Black Grenadines, from $1 to $4 a yard.
Black Crepes de Chine, from 75c to $5 a yard.
Black Peau de Soie, from $1 to $1.50 a yard.
Black Paillet de Soie, from 75c to $1.50 a yard.
Black Taffeta Meteore, from 85c to $2.50 a yard.
Black Duchesse Mousseline, from $1.25 to $2.50 a yard.
Black Gros Grains, from 75c to $2.50 a yard.
Black Armures, from 75c to $1.50 a yard.

Fresh Fashion Hints from Paris.

Real French Novelties in Mull and Batiste Robes—very fetching. Embroidered effects of self, others of white on batiste, and black on white.

Just a matter of a little making and some fitting to have a stylish Summer toilette.

Landed from the Pittsburg Custom House yesterday.
$25 to $40 each.

Another fresh hint—"Escurial Laces will be the thing for Spring." So says our last Paris letter, received yesterday. We have them—black, white, butter color—2 to 15 inches wide—25c to $5 a yard.

New White Goods.

The new white stuffs for shirtwaists and gowns, and for young girls' wear, are taking flight in the quickest kind of a way. Lots of Spring sewing laid out, and lots of white goods being fashioned into Summer garments.

It's to be a White year, no doubt of it.

And that White Goods Store, first floor of the annex, is such a cosy place to sit and select. Such piles of White stuffs from which to choose.

Striped Nainsooks, 5c a yard. 8c goods, and worth eight cents.
Lawn Plaids, 10c and 12½c.
Striped Lawns, 12½c and 15c.
Madras in plaids and stripes, both plain and mercerized, 25c to 50c.
Pique, small, medium and large cords, 20c to 75c.
Fancy Piques, with white figures, 20c to 45c.

Women's New Raincoats for Spring.

To keep up with the new Fashions it's best to come now every day or so. February in this store is called the unpacking month—new things every day.

Today in the Wrap Department of the second floor—new Raincoats for women.

Oxford grays, tans and olive mixtures. Different cuts—three seamed backs with yoke; fly fronts; the new bell-shaped sleeves with turned-back cuffs; velvet collars to match. Some of the coats have body and sleeves lined with self-colored satin, while others only have yoke and sleeves lined. Prices from $12.50 to $25. The weight and style of these garments make them specially applicable for travelers.

New Dress Skirts for Young Ladies.

Brown, gray and blue Cheviot in the new flounce style. Well tailored? Exceptionally so.
From 30 to 39-inch lengths.
$7.50 and $8.50.

CUBAN INTERVENTION WAS NEVER OPPOSED

Lord Cranborne Makes Denial in House of Commons to German Report.

PROPOSAL WAS DECLINED

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

LONDON, Feb. 11.—The under secretary for the foreign office, Lord Cranborne, replying in the house of commons today to a question of Henry Norman (Liberal), who asked whether the government's attention had been called to the statement in the German press, and alleged to have received official confirmation at Berlin, to the effect that Great Britain, April 14, 1898, through her ambassador at Washington, Lord Pauncefote, proposed a fresh note in which the powers should declare that Europe did not regard the armed intervention of the United States in Cuba as justifiable, and that in consequence of Germany's refusal to accept this proposal the step was abandoned, said:

"No, sir; her late majesty's government never proposed through her majesty's ambassador or otherwise any declaration adverse to the action of the United States in Cuba. On the contrary, her late majesty's government declined to assent to any such proposal."

Lord Cranborne's answer to Mr. Norman was received with rounds of applause. Mr. Norman later said to a representative of the Associated Press:

"I am perfectly satisfied, and, of course, implicitly believe the statement of the British ministers."

Negotiating With Brigands.

CONSTANTINOPLE, Feb. 11.—The American delegates remaining at Seres, Macedonia, after the failure recently of negotiations for the ransoming of the abducted American missionary, Miss Ellen M. Stone, and her companion, Mme. Tsilka, have again started negotiations with the brigands.

Sir Thomas Will Attend.

LONDON, Feb. 10.—Sir Thomas Lipton will accept the committee's invitation to be present at the Olympian games to be held in Chicago in 1904 and, if possible, will bring the new American cup challenger to sail on the lakes.

Count Leo Tolstoy.

ST. PETERSBURG, Feb. 11.—Count Leo Tolstoy has suffered a relapse and is dying.

LONDON, Feb. 11.—Alarming advices regarding the condition of the Russian reformer who is in the Crimea, had been received by Count Tolstoy's agent in England. Count Tolstoy is suffering from heart failure and inflammation of the lungs.

THE KAISER'S YACHT.

Hohenzollern Has Left St. Thomas and Due in Bermudas.

ST. THOMAS, D. W. I., Feb. 11.—The Imperial German yacht Hohenzollern left St. Thomas at 10 o'clock Saturday morning. Admiral Count von Baudissin, commander of the yacht, said he would arrive at Bermuda in about two and a half days after leaving here.

HAMILTON, BERMUDA, Feb. 11.—Up to the time of the filing of this dispatch (about 6 p. m.) the Hohenzollern had not been sighted. It is too stormy and the sea is too rough for her to come near the land tonight.

Americans to Present Statues.

ROME, Feb. 11.—The Tribuna announces that the American colony here have decided to present statues of Longfellow and Hawthorne to the city.

PRINCE HENRY'S VISIT NOT TO BE CHANGED

Illness of the President's Son Will Not Interfere With Visit.

SYMPATHY FOR ROOSEVELT

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

BERLIN, Feb. 11.—Prince Henry of Prussia will sail for the United States on Saturday, as arranged. Even should President Roosevelt's son's illness result fatally before that time it is probable the prince will enter upon his journey, unless it should appear to be President Roosevelt's desire that his visit be deferred or omitted altogether.

Bulletins telling of the condition of President Roosevelt's son have been sent to Prince Henry at the Schloss. The prince manifested anxious interest in them, expressed his sorrow at young Roosevelt's illness and said he hoped he would recover.

It is understood both Emperor William and Prince Henry have sent personal messages to President Roosevelt.

BRUSSELS SOCIALISTS THREATEN REVOLUTION

Cavalry Called Out to Quell a Demonstration for Universal Suffrage.

[ASSOCIATED PRESS CABLE TO THE GAZETTE.]

BRUSSELS, Feb. 11.—A detachment of cavalry had to be requisitioned this afternoon in order to disperse the Socialists who made a demonstration in favor of universal suffrage.

All the approaches to the chamber of deputies and the palace were strongly held by armed guards, but bands of Socialists, bearing red flags and singing revolutionary songs, paraded the streets. A strong body of agitators, led by a Socialist communal councilor, reached Prince Albert's palace shouting, "Long live universal suffrage," and continued its demonstrations until a force of cavalry, with drawn swords, charged and routed the rioters.

The exit of the Socialist deputies from the chamber was accompanied by an enthusiastic demonstration upon the part of their adherents. A mob marched to the office of the Socialist organ, Le Peuple, where the Socialist leader in the chamber, M. Van Der Velde, addressed the crowd from a window.

Many Buildings Burned---Injured While Coasting

BLOCK OF BUILDINGS ARE BURNED AT ALLIANCE

LOSS IS ABOUT $50,000

The Local Fire Department Was Unable to Cope With the Big Blaze.

[SPECIAL TELEGRAM TO THE GAZETTE.]

ALLIANCE, O., Feb. 11.—At an early hour this morning fire totally destroyed an entire block in the business part of this city. The flames broke out in the Concordia dancing hall from unknown causes. The entire block was composed of frame buildings, and they burned like tinder, the local fire department being powerless to cope with the big blaze.

The business houses that were consumed, together with their approximate value, are as follows: New Method Laundry Company's establishment, $8,000; Concordia hall, owned by the Concordia Singing society, $4,000; C. H. Severance, bakery, $1,000; J. W. Jones, business block, $6,000; W. A. Smith & Co., grocers, $2,000; D. P. Peterson, owner of the Peterson house, $3,500; Joseph Frederick, saloon, $1,500; Jacob Zuber, manager of the Peterson house, $1,250; George Hertsman, store building, $2,000; W. K. Fogg, store building, $2,000.

The new Christian church, just west of the fire, was very close to destruction, but the firemen made great efforts to protect the building. The Fording-Scranton block, in which several large stores are located, and the depot of the Lake Erie, Alliance & Wheeling railroad were threatened.

The total loss is placed at about $50,000, with partial insurance. Owing to the extremely cold weather the firemen suffered much in their efforts to put out the blaze.

EIGHT COAL COMPANIES HAVE FORMED A COMBINE.

Westmoreland County Concerns Are Consolidated Under a New Name.

[SPECIAL TELEGRAM TO THE GAZETTE.]

GREENSBURG, PA., Feb. 11.—A meeting of the stockholders of the Keystone Coal and Coke Company, Greensburg Coal Company, Hempfield Coal Company, Madison Gas Coal Company, Arona Gas Coal Company and Claridge Gas Coal Company was held today. A vote was taken on consolidating all of these companies with the Sewickley Gas Coal Company and the Carbon Coal Company into one company with a capital of $2,500,000 under the name of the Keystone Coal and Coke Company, which resulted in favor of the consolidation.

This company will own 7,000 acres of coal, 3,000 acres of surface land and 10 well equipped mines in Westmoreland county. It will employ between 3,000 and 4,000 men and control, in addition to the above, some 6,000 acres of coal land and improvements on the Western New York & Pennsylvania railroad, near New Bethlehem, Pa.

The principal office of the company will be in Greensburg, with branch offices at Philadelphia and Pittsburgh.

Rejected Lover Kills Himself.

SHARON, PA., Feb 11.—(Special.)—Because his sweetheart, Mary Klerbara, spurned his offer of marriage, Lucas Blazovisky sent a bullet through his heart this evening, dying almost instantly. He was 20 years old, a blast furnace worker, and came to this country two years ago from Hungary.

Mental unrest is a sure sign of physical disease; often of ailments beyond the reach of ordinary remedies. Dr. D. Jayne's Tonic Vermifuge restores the debilitated organs, and healthy action brings strength.

HARRISBURG MAY GET NEW COLLEGE

Capital City Is Favored for Location of Consolidated Schools.

[SPECIAL TELEGRAM TO THE GAZETTE.]

HARRISBURG, PA., Feb. 11.—The college to be formed by the consolidation of Albright college, Meyerstown, and Central Pennsylvania college, New Berlin, will be located in Harrisburg if $125,000 is furnished from local sources.

This was announced today by the committees from three conferences which are interested in the institution, at a meeting with the committee from the Harrisburg board of trade. The three conferences which are united in the support of the new college are the East Pennsylvania, Central Pennsylvania and Pittsburgh conferences.

The consolidation of the colleges has been decided upon, provided a suitable location can be secured. Harrisburg is favored by the three conferences, and it is assured that the college will be located here if property equivalent to that which is to be abandoned will be furnished.

Two Trust Companies Chartered.

SEVEN YOUNG PEOPLE INJURED WHILE COASTING

ONE VICTIM MAY DIE

Bobsled Struck a Telegraph Pole With Terrific Force.

[SPECIAL TELEGRAM TO THE GAZETTE.]

BRIDGEPORT, O., Feb. 11.—Seven young society men and women were seriously injured in a coasting accident at Kirkwood last night, and one of the victims may die. Dr. J. K. Hunter guided the big bobsled, which struck a telegraph pole, throwing the coasters off in a heap.

The injured:

MISS LUCY BAGGS, probably fatally injured.

MISS CLARA FRANZELL, knee cap painfully hurt.

MISS ANNA LEE COOKE, knee badly injured.

MISS GRACE TURNER, knee badly cut.

MISS GWENNIE EVANS, knee cap bruised and cut.

DR. J. K. HUNTER, cut about the head, and numerous bruises.

H. B. WOODCOCK, bruised.

The scene of the accident was on a big hill at the edge of town, and the place has been filled with sleds and "bobs" of every description during this long cold spell. The accident occurred just as the young people were planning to stop the fun for the night. When the big bob started down the hill for the last time it gave a sudden swerve about the middle of the track and Dr. Hunter was unable to guide his load. The collision with the telegraph pole was made on the full grade.

The young women were carried to their homes. Some of them are in a serious condition today, and it is feared that Miss Baggs may die.

BEAUTIFUL CHILDREN

Made Well and Strong by Pe-ru-na.

A Letter From a Grateful Mother to Dr. S. B. Hartman.

Mrs. G. W. Heard of Howth, Texas, writes to Dr. Hartman in regard to her baby girl, Ruby:

"My little girl was two years old in January. She had some derangement of the bowels. She was a mere skeleton and we did not think she would ever get well. She had been sick three or four months, and after giving her less than one bottle of Peruna she was sound and well. I found the Peruna splendid for wind colic, with which she was troubled, when she began to improve in strength and appearance. Now she has a good appetite and is a picture of health."

Mrs. Heard also writes in regard to her son, Carl:

"My son's ears had been affected since he was a babe only a few months old. He seemed to have risings in his head. He would be very fretful for several days, then his ears would run profusely what appeared to be corruption. The last year I thought he had almost lost his hearing and had a local physician treating him for about six weeks. He pronounced him well and for a few weeks he was not troubled, but since that time the discharge from his ears was almost constant and very offensive. Finally I began giving him your remedy, and after he had taken two bottles he was entirely cured. I cannot praise Peruna enough."

MRS. G. W. HEARD.

Mrs. C. E. Long, the mother of little Mina Long, writes from Atwood, Col., as follows:

"When I wrote you for advice my little three-year-old girl had a cough that had been troubling her for four months. She took cold easily, and would wheeze and have spells of coughing that would sometimes last for a half hour. We doctored all winter without relief.

"Now we can never thank you enough for the change you have made in our little one's health. Before she began taking your Peruna she suffered everything in the way of cough, colds and croup, but now she has taken not quite a bottle of Peruna and is well and strong as she has ever been in her life. She has not had the croup once since she began taking Peruna, and when she has a little cold a few doses of Peruna fixes her out all right. We can never praise it enough. We tell everyone about it who has any ailment. We want to keep it always in the house. You may use my name anywhere in its praise."

MRS. C. E. LONG.

Dr. R. Robbins, Physician and Surgeon, of Muskogee, Indian Ter., writes:

"I have been a practicing physician for a good many years and was always slow to take hold of patent medicines, but this winter my little girl and myself were taken with the grip. I was so bad I was not able to sit up. I sent for a doctor, but he did me no good. I had such a cough; it would not let me rest day or night. I got so weak and prostrated and nervous that I could hardly stand alone and I was all broken up. My system seemed to be all deranged.

"Finally I thought I would take anything to be cured, so I sent and got a bottle of Peruna and commenced to take it. I took two bottles and my cough was gone and my lungs loosened up and my head became clear. Then I could both hear and smell and the pain left my stomach and limbs. I want you to know the grip had me instead of me having the grip, and my little girl took the same way.

"It looked as though she would die, she was so sick. I gave her medicine, but it seemed to do her very little good, so I sent and got one more bottle of Peruna and commenced to give it to her. It was only a short time until she was getting along all right, so I give your medicine, Peruna, the praise for what it did for me and my dear little daughter.

"I have told everyone it is the best medicine for catarrh of head, lungs, stomach and nervous prostration."

DR. R. ROBBINS.

Mrs. Schafer, 436 Pope ave., St. Louis, Mo., writes:

"In the early part of last year I wrote to you for advice for my daughter, Alice, four years of age.

"She was been a puny, sickly, ailing child since her birth. She had convulsions and catarrhal fevers. I was always doctoring until we commenced to use Peruna. She grew strong and well. Peruna is a wonderful medicine; the best medicine I have ever used.

"I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all right. I would not have any other medicine.

"Peruna cured my baby boy of a very bad spell of colic and fever. He is a big, healthy boy, fifteen months old. I have given him Peruna off and on since he was born. I think that is why he is so well. Cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it."

MRS. SCHAFER.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

(No. 279.)

AN ORDINANCE—To suppress, restrain and regulate pool and billiard rooms in the city of Allegheny.

Section 1. Be is ordained and enacted by the select and common councils of the city of Allegheny and it is hereby ordained and enacted by the authority of the same, That the department of public safety of the city of Allegheny shall have and is hereby given the power and authority to license, upon the payment of four ($5.00) dollars annually, public pool rooms and billiard rooms within said city, and that each and every person, firm or corporation owning and operating, or operating a public pool or billiard room shall be required to apply to the superintendent of the bureau of police for a license therefor, setting forth in his, her or their application fully and specifically his, her or their nationality; previous occupation, place of location of pool or billiard room proposed to be licensed, the number of tables to be used, the number of rooms, and whether the whole or part of such house is to be used for such purpose; and such license when granted shall be approved by the director of the department of public safety and posted in a conspicuous and public place in the premises so licensed.

Sec. 2. No person under 18 years of age shall be permitted to participate in or play pool or billiards in any house or portion thereof, so licensed, nor shall billiards or pool be played in any house so licensed between the hours of 12 o'clock, midnight, and 6 o'clock a. m., nor shall any license permit drunken or disorderly persons to frequent or congregate on the premises for which such public license shall have been granted.

Sec. 3. The department of public safety shall have and is hereby given power and authority in case of any disorder, drunkenness, disturbance or annoyance of any kind in any such room or rooms or house so licensed to enter upon and into such place or places where pool or billiards are played and to arrest on view all persons acting in a disorderly manner in such room or rooms or disturbing the public peace; and the department of public safety shall have and is hereby given the right, power and authority to close any such licensed place violating the provisions of this ordinance, and shall also have the right and power to revoke and annul such license.

Sec. 4. Every person engaged in keeping an unlicensed public pool or billiard room shall be subject to a fine of not less than twenty-five nor more than one hundred dollars for each and every day such room or rooms that shall be kept open and in operation; which fine or fines shall be recovered summarily before any alderman or police magistrate of said city; all fines so recovered shall be paid into the treasury of the city of Allegheny for the use of said city.

Sec. 5. Every person violating any of the provisions of this ordinance and regulations thereof or shall fail to comply with its terms and conditions shall be subject to a fine of not less than five dollars nor more than twenty-five dollars for each and every offense, and in default of payment of said fine and costs, shall be committed to the common jail of Allegheny county or to the Allegheny county workhouse, for a period of not more than thirty days.

Sec. 6. That so much of any ordinance as may conflict with or be supplied by the foregoing be and the same is hereby repealed.

What is the Doctor's Duty?

When the family physician fails to cure Rectal disease through ordinary means he suggests what is to him the last resort—the hospital and a long, tedious and torturous *surgical operation*. He means well, he is honest and conscientious in his opinion—but if he would step down from his pinnacle of "professional ethics" and investigate he would discover another and a better way—the Warner way.

THE WARNER WAY OF TREATING RECTAL DISEASES WITHOUT THE KNIFE HAS STOOD THE TEST 18 YEARS. The regular practitioner, limited to the narrow bounds of his own particular teachings is inclined to regard as futile any other method of cure, particularly if his prejudice forbids investigation. The patient owes it to himself to get the best and quickest relief. Dr. Warner has cured and is curing constantly obstinate Rectal cases in which family physicians had failed and who considered it their conscientious duty to recommend what they think is a last and only resort—the hospital and a surgical operation. DR. WARNER IS THE ONLY EXCLUSIVE RECTAL SPECIALIST IN PITTSBURGH AND CURES PILES, FISTULA AND ALL RECTAL AILMENTS without knife, pain or detention from business.

ICE PREVENTS A RESCUE

Favoring Wind Scatters the Floe and Allows Boat of Rescuers to Approach Sinking Schooner in Time to Save Almost Hopeless Sailors.

[ASSOCIATED PRESS TELEGRAM TO THE GAZETTE.]

NEW YORK, Feb. 11.—The schooner which was burned to the water's edge off a point north of Cape May last night was the Mary Graham, from Norfolk to New York, and the crew is safe, having reached here late this afternoon. They were picked up by the schooner J. C. Clifford.

Capt. F. H. Medley and five seamen composed the crew of the Graham. She was a two-master which left Norfolk, Va., three weeks ago with 187,000 feet of pine lumber consigned to a New York firm.

About half past 6 o'clock last Saturday morning the schooner was caught in the ice which was coming out of the Delaware river and the captain, fearful that he would be crushed or blown ashore, dropped both anchors, being at that time eight and a half miles northwest of Cape May in nine fathoms of water.

Men Suffer from Cold.

The schooner was leaking and the crew was kept at the pumps. They suffered terribly from the cold, and the hands of Mate Charles Anderson and Sailor Gus Bunson were frost bitten. Plenty of hot coffee reduced the men's suffering considerably.

Heavy seas were breaking over the vessel and the bowsprit was carried away. Soon afterward both masts went by the board. In falling over the side of the schooner the masts carried away the only boat. This left the crew helpless and their only hope of safety lay in being picked up by a passing ship. The schooner was one mass of ice from bow to stern by this time and to add to the peril the captain found she was in danger of sinking, being an old vessel. To lighten her the captain had about twenty thousand feet of lumber thrown overboard.

Rescued Just in Time.

Despite all efforts the schooner was settling rapidly, when the J. C. Clifford, also a lumber laden schooner, hove in sight. This was about 9 o'clock yesterday morning.

The Clifford lay to about 100 yards from the Graham and sent a boat with a mate and three sailors to rescue the crew. On account of the ice the small boat had great difficulty in forcing its way through the water and the mate had about given up hope of reaching the sinking schooner when a sudden change in the wind made a passageway through the ice through which the hardy crew rowed to the Graham.

Seeing that there was no chance of saving the vessel Capt. Medley set fire to her before entering the Clifford's boat. In explaining this action he said that the vessel was over 30 years old and her hull was in such bad condition he knew she would soon sink. The Graham was owned by the Greenleaf-Johnson Lumber Company of Berkley, near Norfolk, Va.

OLD IDEAS DISCARDED.

Life Insurance Company Whose Success Is Due to Up-to-Date Methods.

NEW YORK, Feb. 11.—(Special.)—Fifty-three million dollars of new insurance policies in the first six weeks of the year is the astonishing high water record announced by one of the foremost life insurance companies. The announcement is made today on the occasion of the celebration of the 10th anniversary of the election of Hon. John A. McCall to the presidency of the New York Life Insurance Company. Insurance men and financiers admit that this is one of the strongest indications of the general prosperity of the country that has been presented since the dawn of the new year. President McCall is being showered with telegrams and letters of congratulation from officials and agents of the New York Life all over the land. In his report made at the beginning of the year, Mr. McCall foreshadowed the era of insurance activity now prevalent. He insisted that the old style of management which was disposed to quibble over the settlement of claims and which denied the right of the insured to loans and surrender values on demand, must give way to more liberal ideas, and also that an open record of all transactions of the year should be furnished annually to the insured. It was hardly anticipated, however, that the response would be so spontaneous or of such dimensions. Fifty-three million dollars is more new business than many of the larger companies have hitherto been able to write in the course of 12 months. Should the present rate on new insurance keep up for the year the New York Life will secure $300,000,000 in new paid for policies, a figure so far in advance of anything hitherto achieved that there is no opportunity for comparison.

"CARNEGIE TIME'S" TROUBLE

His Watch Taken When He Was Arrested and He Cried Piteously for Its Return.

Louis Walters, aged about 55 years, a peddler and a well-known character in Allegheny, whom nearly every North Sider knows as "Carnegie Time," was arrested on East Ohio street yesterday afternoon by Wagonman George Born and locked up in Central station on a charge of intoxication.

Walters gained his nick name by comparing his watch with the watches of pedestrians and swearing by Carnegie hall time.

When he was taken to the station house Sergeant Sherry pretended that he was going to keep the timepiece. Walters cried pitiously for the watch on which he set such store, but it was not returned to him until he was released.

Local Syndicate Wants Western Maryland

PITTSBURGHERS HAVE AN AGENT NOW AT WORK

He Formally Admits the Identity of His Employers, But Denies Pennsylvania Interest.

A syndicate of Pittsburghers is behind one of the bids for the Western Maryland railroad. Carroll B. Slick is looking out for their interests in Baltimore and Annapolis. He issued this statement yesterday:

"I have heard that it has been reported that my connection with the proposed purchase of the Western Maryland was in behalf of New York interests connected with the Pennsylvania Railroad Company. This is not correct. While I have thus far succeeded in keeping the matter quiet, yet now that it is known, I would state that I represent a syndicate of Pittsburgh men, and that we are not operating for nor with the Pennsylvania Railroad Company."

Who comprise the Pittsburgh syndicate has not yet developed. One Pittsburgh bid for the road has already been made by Samuel R. MacLean of No. 314 Fourth avenue, who represents a New York syndicate.

B. & O. Officials Spend Day Here.

Several general officers of the Baltimore & Ohio spent yesterday in this city. They were General Manager G. L. Potter, E. D. Casanave, general superintendent of motive power; T. J. Foley, assistant to the general manager. Mr. Potter and Mr. Casanave spent several hours looking over the Glenwood shops. C. E. Pur, superintendent of police of the Baltimore & Ohio lines, was in the city also yesterday, enroute to Cleveland. He is organizing on the present Cleveland division of the road, composed of the old Cleveland Terminal & Valley and the Cleveland, Lorain & Wheeling, a police force similar to that maintained on the Baltimore & Ohio elsewhere.

NEW FREIGHT STATION FOR THE FORT WAYNE

Great Two-Story Structure Will Increase the Present Facilities at Tenth Street.

A great freight terminal is to take the place of the Penn freight station of the Fort Wayne at Tenth street. Plans for it are now being shaped up, and by the time of the new bridge across the Allegheny river is done it will be ready for service.

Like the bridge, the new freight house will be two stories high. Cars from either deck of the bridge can be run into the station without being raised or lowered. Elevators will carry the freight to and from the platforms on the level of the ground.

The lower deck of the new bridge will be used exclusively for freight. At the Pittsburgh end it will connect with the Penn yard. On the Allegheny side large yards for the West Penn are planned. Those yards will be located, it is believed, east of Anderson street, extending along the present tracks of the West Penn for several blocks.

Work on New Plant Begun.

The Pittsburgh & Lake Erie yesterday started its new interlocking plant at McKees Rocks. Despite the cold weather its workings were quite satisfactory. The operators in charge of the tower are H. H. Hunter, first trick; F. E. Wylie, second trick, and J. J. Hardgrave, third trick. Automatic safety signals were started yesterday on the stretch of track near Shannopin so far lacking them, giving the road now automatic signals from Pittsburgh to College hill.

DEFICIT SCALED DOWN SOMEWHAT

CITY RUNS BEHIND $930,201 72 FOR THE LAST FISCAL YEAR.

Controller Lewis Gives Some Figures to Show That the Shortage Is More Than Two Hundred Thousand Dollars Less Than It Was the Year Before.

The deficit in the city treasury created some years ago by the machine, and which has continued ever since, has been reduced a little in the past fiscal year. In 1901, when the appropriation ordinances were adopted, the deficit was $1,200,841 20. In 12 months it has been reduced to $930,201 72, a cleaning up of $270,142 58, according to figures furnished by Controller Joseph E. Lewis yesterday.

At the rate at which the deficit has been slowly cut down in the past five years it will take nearly 10 years before it can be wiped out entirely, for it has been reduced by only $561,535 36 in five years.

Having grown rapidly for several years, the deficit reached its highest altitude, $1,490,738 98, in 1899. In the following year it was cut down to $1,333,933 67. Controller Henry L. Gourley died that year and Mr. Lewis was elected in June to serve out the term. In the fiscal year beginning with 1900 the deficit was reduced $157,803, and in 1901 by $138,489 87.

Of the amounts appropriated for municipal purposes last year, $724,304 98 have not yet been expended. This amount isn't in the city treasury, however, and it, in addition to $202,896 74 for outstanding warrants, will have to be borrowed from favored banks. These two items make up the deficit.

The city will, therefore, have to borrow as much as may be necessary to run the city until the March installment of taxes becomes due. In addition to these taxes any delinquent taxes from former years that are collected will be applied to paying the deficit.

BROOKLYN RAPID TRANSIT PROPOSES BIG MORTGAGE

Directors Would Bond Company for $150,000,000 for Needed Improvements.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW YORK, Feb. 11.—The executive committee of the Brooklyn Rapid Transit Company authorized today the following announcement:

"The board of directors of the Brooklyn Rapid Transit Company have unanimously decided to submit for the approval of the stockholders a mortgage to secure bonds to the amount of not exceeding $150,000,000. The proposed bonds are to bear interest at the rate of not exceeding 4 per cent per annum." Explaining the announcement the directors say:

"In recommending to stockholders a mortgage for so large an amount the directors have considered the rapidly increasing growth of Brooklyn and the country adjacent, and the present inability of the company's elevated and surface roads to properly fulfill their duties to the public without a large increase of power, equipments, improvements and extensions, and since everything indicates a continuance of this growth the directors believe it to be the duty of the company to make proper provision therefor, from time to time, as its developments suggest."

Sectionmen on Handcar Struck by Train and Two Are Killed.

HUDSON, WIS., Feb. 11.—A freight train struck a handcar on the St. Croix bridge today, killing Sectionman Andrew Swansen and August Johnson, and injuring Fred Carlsen and Charles Johnson. The accident happened during a driving snowstorm.

While the coroner's jury was viewing the scene of the accident another freight train collided with the River Falls passenger train on the bridge, within 100 feet of where the first accident occurred. The passengers were badly shaken, the freight engine derailed and both engine pilots smashed.

Canada Reduces Duty on Paper.

OTTAWA, ONT., Feb. 11.—The government has decided to reduce the custom duty on news printing paper from 25 per cent to 15 per cent ad valorem. This is the result of Justice Taschero's inquiry into the charge of the Canadian Press association that there was a combination among the paper manufacturers.

AN ORDINANCE—Levying taxes and assessing water rents for the fiscal year, beginning March 1, 1902.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny and it is hereby ordained and enacted by the authority of the same, That for the purpose of providing sufficient revenue to meet the ordinary expenses of the city, to pay interest on outstanding bonds and to discharge all other liabilities now due or which may become payable during the said year beginning March 1, 1902, shall be and is hereby levied and assessed upon all property and other objects of taxation as follows, viz.: City taxes—Upon all property taxable for state or county purposes, thirteen and one-half (13½) mills on each dollar of valuation except the property in said city designated as rural, upon which the tax shall be assessed at two-thirds of said rate; and upon all property designated as aristocratic the tax shall be assessed at one-half of said rate. Upon all property taxable for state or county purposes (exclusive of improvements) a tax of three-tenths (3-10) of one mill, for the purpose of paying interest on all sewer bonds of the city not otherwise provided for by the sinking fund.

Sec. 2. And at the above rate the board of assessors shall assess said taxes, and the city treasurer shall have no power to divide any item of tax as reported by the board of assessors.

Sec. 3. That the rates of vehicle licenses for 1902 shall remain the same as fixed by ordinance approved July 28, 1900, entitled, "An ordinance relative to the licensing of vehicles in the city of Allegheny."

Sec. 4. That the following shall be the rates of water rents: One room, $2.50; two rooms, $3.00; three rooms, $3.75; four rooms, $4.25; five rooms, $4.75; six rooms, $5.25; houses containing more than six rooms shall be assessed an additional $1.00 per room; large rooms (equal in size to two common rooms) shall be assessed as two rooms; churches, parsonages, taverns, boarding houses, delivering stables, cottage factories, breweries, tanneries, malt houses, and all places where steam is used, shall be charged special rates, to be fixed by the committee on public works, except when supplied for family purposes, then the rate shall be one dollar per hundred gallons; also, a further rate exclusive of any rate that may be charged by the private use for fire

lowing items, viz.: Public baths, each tub, the sum of $10; private baths, each (cold water) $2; private baths, each (hot and cold water) $3; water closets, private use, $2; not more than $10; private dwellings, each additional closet, half rates; hotel, McKissock's or similar closets, each $12; plug watering hose, each $1.50; carriages, semi-public use, each $5; carriages, private use, each $1.50; cows, each, 75 cents; slaughtering houses, each, from $10 to $50; store rooms, separate and apart from dwellings, from $2.50 to $25; breweries, or any other arrangements (separate from dwellings or tenements, hose) for washing purposes, from $1 to $10; and gardens or lawn hose, from $2.50 to $12; saloons from $15 to $40, where pumps are used, each $5 additional; barber shops, one chair, $2, for each additional chair used, $1; blacksmith shops, each forge, $2; churches, from $2 to $7; schools, from $5 to $25; offices, separate from dwellings and stores, $2; bakeries, for each barrel of flour baked, 1 cent; fountains in yards or gardens, a jet of three-sixteenths (3-16), $3, each additional jet, $2; hydrants, for each 1,000 bricks made, 10 cents; for all other purposes not enumerated to be made at the discretion of the superintendent of bureau of water assessments. Permits for sprinkling the streets will be granted by the superintendent of the bureau of water supply under the terms to be fixed by the director of the department of public works. The committee on public works may suspend the use of water for sprinkling streets, whenever in their judgment the public exigencies may require it. Any person or persons believing themselves aggrieved by the superintendent in levying the water tax, may at any time appeal for redress to the committee on public works, stating the facts under oath or affirmation, administered by competent authority.

Sec. 5. That the superintendent of the bureau of water assessments be and he is hereby authorized to assess all owners of manufactories and private dwellings (who are not and cannot be assessed according to the established schedules) not exceeding five cents on the dollar of valuation, for water purposes, providing no tax to be levied on property not within reach of fire protection.

Sec. 6. That the revenue of the said city for the year 1902, arising from taxes, water rents, markets, fines and forfeitures and all other sources, together with any money in the city treasury not appropriated, are hereby appropriated for the current fiscal year.

A Brave Girl Dead—Eva Kersel, the eight-year-old daughter of John Kersel of No. 68 Baltimore street, Rankin, died yesterday morning from burns received last Saturday while attempting to extinguish the flame on her younger sister's clothing, which had ignited from the grate.

Object to Double Fares—Action will be taken against the Pittsburgh Railways Company in Homestead, Braddock, East Pittsburgh and North Braddock for violating the franchises in charging double fare on the night cars. The matter would have been accepted, as it has been for years, if it were not for the aggressive agitation in McKeesport.

Wandered from Home—Mrs. Mary Anderson, aged 65 years, was found in a hallway at No. 2418 Carson street early yesterday morning suffering from exposure. During Sunday night Mrs. Anderson left her home, No. 1725 Wharton street, and wandered away. A search was instituted, but she was not found until yesterday morning. Her mind is thought to be affected.

To Bury the Wires—Supt. John Bailey of the Federal Telephone Company has draughtsmen at work preparing plans for the underground wire system which the company proposes to introduce in McKeesport, in compliance with an ordinance recently passed by the McKeesport councils. Work will be commenced April 1. The companies are allowed four years in which to complete the work.

Young Woman Found Dead—Mrs. Martha Schlipp, aged 23 years, was found dead at her home, No. 90 Melrose avenue, Allegheny, about 6 o'clock last night. Her husband left home in the morning and when he returned in the evening found her dead on a rug in the dining room. It is the belief of the police and the attending physician that she died of an operation performed by herself.

Vote as you please. The ballot will be absolutely secret.

Press Club Benefit—At a meeting of the board of directors of the Pittsburgh Press club last evening it was decided to have James T. Powers in "The Messenger Boy" play a matinee at the Alvin theater for the club's benefit. Contracts have been made and Press club day at the Alvin during "The Messenger Boy's" engagement early in April will be an unusually interesting event.

Mrs. Steebs in Jail—Mrs. Mary Steebs, who was arrested last week for shoplifting in Boggs & Buhl's store, in Allegheny, was yesterday afternoon sent to jail for court by Police Magistrate David McKelvey on two charges of larceny. Mrs. Steebs spent nearly an hour yesterday afternoon in Superintendent of Police Henry Muth's office telephoning to friends to see if she could not obtain bail, but was unable to do so.

Vote against the system of graft in the administration of public affairs.

Library But No Books—The McKeesport Carnegie library has been completed and the building is now ready for dedication. The only drawback is the fact that the library contains no books. The $50,000 donated by Mr. Carnegie and $15,000 of the maintenance fund instituted by the city have been expended, but still no books have been purchased. A meeting of the library committee has been called for Wednesday evening of next week to devise plans for collecting funds.

Big Iron Production—The aggregate number of furnaces in blast February 1 was 270, against a total of 259 January 1, a gain of 11 stacks. The aggregate weekly tonnage February 1 approximated the weekly producing capacity, was 372,093 tons, against a weekly capacity of 311,820 tons January 1, an increase in weekly capacity of 21,078 tons. Pittsburgh's weekly tonnage increased from a total of 74,119 tons January 1 to 80,818 February 1, a gain of 6,699 tons.

Rescue the city from the postscript administration.

Shousetown Church Burned—The old Presbyterian church at Shousetown was destroyed by fire on Monday night. It is not known how the fire caught. The loss is very little, as the building was old and about to be abandoned for the new church soon to be dedicated. Rev. G. P. Atwell is pastor. Some of the furnishings of the old church were to be used in the new building, and their destruction places the congregation at an expense not calculated upon. The dedication will take place on the day originally set.

Directors Elected—The annual meeting of the stockholders of the Allegheny County Light Company, a subsidiary concern of the Philadelphia Company, was held yesterday at the general offices, No. 435 Sixth avenue. The following were elected directors: James D. Callery, James H. Reed, M. K. McMullin, H. J. Bowdoin, Patrick Calhoun, Joshua Rhodes, George H. Frazier, T. H. Given and W. B. Carson. The directors elected Mr. Callery, president; Mr. Reed, vice president; Mr. Carson, secretary; C. J. Braun, Jr., treasurer, and C. S. Mitchell, auditor.

Vote against the manipulation of contracts by the favored few.

A Happy Boarding House—The Loomis minstrels were in the city on Monday night and gave one performance to a crowded house. The encores were so numerous that it was with difficulty that the performance was ended. The Loomis minstrels appear annually in the dining room of Mrs. Loomis' boarding house, No. 330 Neville street. All of the members are boarders at the house, and the audience of 150 were the other boarders and friends. Everything was in first-class minstrel style, there were two part-to the program, and, as at all minstrel performances, everything was funny and all enjoyed themselves.

Let your vote express what you think about the Stone postscript.

Another Smallpox Case—Another case of smallpox turned up last evening at 6:30. The victim is Clarence L. Cunningham, a riverman. He was employed on the towboat Harry P. Jones, which was sunk yesterday morning. In the afternoon he felt ill and started for the Marine hospital, which is now located in the Mercy hospital. Before he had a chance to enter the building he was seen by one of the attendants. The nature of his illness was recognized and he was not admitted. He was sent to the bureau of health, where Dr. Boeth found that he had smallpox and had him taken to the Municipal hospital. His case is not severe.

Vote as you please. The ballot will be absolutely secret.

Dead Boy's Father Missing—Walter Francis Edgar, aged 6 years, died at the Allegheny General hospital yesterday morning of typhoid fever, and the Allegheny day nursery officers are looking for the dead boy's father, Frank W. Edgar. It appears that about six months ago, Edgar, who was then in the employ of Thomas Carlin's Sons & Co., in River avenue, placed the boy in the care of Mrs. Jennie Marshall, matron of the day nursery, agreeing to pay $5 per week for the boy's maintenance. This he did until the boy took sick on January 15, when the child was taken to the hospital. Since then he has not been heard from.

At the Institute—The board of trustees of the Carnegie Institute met today. The principal business was the forthcoming meeting of the American Association for the Advancement of Science, which convenes in Pittsburgh on June 27, 1902. It is proposed to secure a committee representing all the learned and scientific societies in the city to act as a general committee of arrangements. As a constituent part of that committee, the Carnegie Institute trustees appointed the following members to serve thereon: William N. Frew, C. C. Mellor, S. H. Church, George H. Clapp, Robert Pitcairn, J. M. Clark, Dr. W. H. McKelvy, M. G. Leslie, W. E. Corey, Joseph Woodwell, H. K. Porter and John B. Jackson.

Vote to take control of city affairs out of the hands of Stone's agents.

Deaths of a Week—The Pittsburgh mortuary report for the week ended Saturday, February 1, 1902, shows the total number of deaths to have been 140, an annual death rate of 21.06 per 1,000 inhabitants. Of the decedents, 20 died of typhoid fever, 26 of pneumonia, 5 of grip, 3 each of diphtheria and measles, 7 of pulmonary tuberculosis, 8 of apoplexy, 6 of convulsions, 4 of heart disease, and 13 of violence; 31 were under one year of age, and 2 over 90; 71 were single, 45 married, 15 widows, and 5 widowers, 2 divorces and the social relations of two were not stated; 64 were natives of Pittsburgh and 25 of other parts of the United States, the rest were foreign born; 15 died in public institutions and 18 were coroner's cases. During the week there were reported 32 cases of typhoid, 16 of scarlet fever, 9 of diphtheria, and one of smallpox.

Vote against disfranchisement of the people by official trickery.

West Mystic, Conn., Rejoices in the Revival of Shipbuilding at That Place.

WEST MYSTIC, CONN., Feb. 11.—In the presence of over 5,000 persons the great new five-masted schooner, the Jennie R. Dubois, was launched at the yards of the Homes Shipbuilding Company here today. The schooner was christened by Mrs. Jennie R. Dubois, wife of Judge Dubois of the supreme court of Rhode Island.

The schooner took the water in beautiful style, sliding gracefully clear across the channel of the Mystic river. She was immediately drawn back to midstream, where the usual festivities began.

Celebrating the revival of shipbuilding here all Mystic took a holiday, factories, schools and places of business having closed.

MANDARIN OF THE

Precious Ruby Clasp.

An illustrious Chinese Mandarin was put on the famous American food, Grape-Nuts, and he and his wife cured of stomach and kidney trouble and heart disorder after he, in particular, had been pronounced by his physician incurable.

His letter is written by his interpreter and signed with his Chinese signature. It recites, "For three years I was under the care of the best physicians in Russia, Germany, France, America, as well as my own country, I had tried baths and water cures almost without number. I grew worse until finally my physician pronounced me incurable and I was doomed to die in from three to six months.

"A friend prevailed upon me to change my food and take up Grape-Nuts. This I did more to gratify my friend than from any benefit I expected, but within 24 hours the results were so gratifying as to astonish and delight myself and family.

"My improvement continued without relapse until at the end of three months I was well and sound, weighed more and was stronger and had a better appetite and more perfect digestion than at any other time in my life.

"My wife was also a victim of serious stomach trouble, from which she had suffered for several years. She has been restored to good, robust health by the use of Grape-Nuts.

"I have recommended it in about half a dozen families and it has never failed to benefit. I will be pleased to reply to all letters having stamped envelope enclosed." Pak Gaw Mun, Mandarin of the Ruby Button, Member of the Literati, Magistrate of the Order of the Manchurian Crane, Order of the Girdle of the Jade and Precious Ruby Clasp, Servant to His Imperial Majesty the Son of Heaven, etc., etc.

His interpreter and secretary, E. Percivale Baker, adds to the letter, "I am familiar with all the facts related by Prof. Pak and know them to have been moderately stated. I also, and my family, have received much benefit from the use of Grape-Nuts."

MONEY THROWN RIGHT AND LEFT BY THE MACHINE

An Excess of $163,000 Over Last Year Given to the Streets and Sewers.

OFFICIAL A FIGUREHEAD

E. M. Bigelow Says That the Chief of the Water Bureau, Who Signs All the Papers, Is Not Allowed on the Grounds of Reservoir No. 2.

E. M. Bigelow, former director of the department of public works, has been looking over the appropriation ordinance for this year and has found a number of places where the taxpayers have cause for complaint. One of them is in an item of $163,000 in the bureau of highways and sewers.

"This year's appropriation," said he, "for the maintenance and care of streets is $163,000 larger than the same item last year. There is also a large additional appropriation for repaving streets. It should be remembered that repaved streets do not require repairs. Since there is an increase in both items, it is natural to inquire what is to be done with the $163,000. To say the least, it is gross extravagance.

Deficit Unnecessary.

"When I was put out of office the first time there was no deficit in the bureau of highways and sewers. By the time I was reinstated $46,000 had been spent on patching asphalt streets. While in the second time I got the streets into a cleanly condition again, cut down the expenses of the bureau and left it without a cent deficit. If I was able to do this on the money we had last year, then what is going to be done with the $163,000 additional this year?"

Mr. Bigelow is confident that Mr. Brunner would not have left the engineering bureau had it been possible for him to have conducted the bureau as he desired. The former director says that no self-respecting man could hold the position and do the things that are required of him.

Could Afford a Big Salary.

He is of the opinion that the city could afford to pay Brunner a salary of $25,000 a year because of his superior ability. According to the director most of the engineers in the city government are incompetent and are being paid salaries to keep their mouths shut.

"Shepard of the water bureau is a good man," said Mr. Bigelow, "but he should resign. While he is held responsible and supposed to be in charge of the work on Highland reservoir No. 2, he is not allowed to go on the ground, yet he is supposed to sign all the papers."

Mr. Bigelow predicts that the machine is getting ready to pay $300,000 for property for an approach to the South Twenty-second street bridge. He asserts that options on the property are now held by machine men. In speaking of the Twenty-second street project he said:

Bait for Southsiders.

"The machine had an item of $250,000 put in the bond issue as a sop to the voters of the South Side so that they would vote for the bond issue. This money was to be used in getting an approach to the bridge. It was originally planned to connect Brady and South Twenty-second streets, but Maj. Hoxie, then government engineer, refused to approve the plans. We then built the bridge from Brady to Wharton streets and turned the approach toward Twenty-second street, without spending any of the bond issue.

"Several South Side men identified with the machine secured options on the property between Twenty-second and Twenty-third streets. They wanted to sell it to the city for an approach to the bridge. Those options expired, but have been renewed, and the scheme is to sell the property for $300,000. If a machine council is elected this job can be expected.

"The point bridge needs an engineer to look after it. The structure would have tumbled down long ago had not the West End Traction Company changed the flooring. The bond issue contained an appropriation for this bridge, but the machine used the money for the South Tenth street bridge."

A Very Superior Sideboard

The furniture which this store sells is, first of all, thoroughly dependable.

That's the most potent element in the success of this business.

Next, the designs are not seen elsewhere—which fact presupposes their superiority and adds an interest to every piece.

Furniture for the dining room is here in plenty—some severely plain, other pieces displaying a wealth of ornate carving.

The sideboard shown above will surely win your approval instantly. It is made of quartered golden oak, 4 feet 6 inches wide by 6 feet 6 inches high, bevel French plate mirror, 40 by 18 inches.

It is a fine example of the better class of present-day designing.

Price $48

You are invited to visit our store as often as you care to come. It is always a pleasure for us to show the new things as they arrive.

TWELVE PAGES

Fraud and Disfranchisement.

It is the popular impression that the present efforts of the managers of the Stone-Flinn campaign for "mutual political and business advantage" are being addressed largely to the juggling of tax receipts for purposes of delay, and they are doing nothing to counteract it. The commissioners' office, the county treasurer's office and the delinquent tax collector's office all have a hand now in the proceedings which the people are convinced are designed to disfranchise citizens of Pittsburgh. The proper course for men who are presumed by law to be the servants of the public is to expedite the business of these various offices in the public interest, but in this case the public business and the rights of the people are being interfered with, according to popular belief, at the dictation of those who have secured privileges from the governor on terms that they and the chief executive are keeping to themselves, but which crop out from time to time in various ways. The apparent disposition to disfranchise voters suspected of unfriendliness to the Stone-Flinn deal has been a notable feature of the present campaign and is not without a large influence in making votes for the Citizens party ticket. If the persistent delay in the issue of tax receipts and the repeated breaking of promises and apparent double dealing are not in the interest of the Stone-Flinn combination, the various moves and failures and refusals to move have so much that appearance that people are convinced it is all for the purpose of forcing the success of the Stone-Flinn ticket. When the padded registration lists in certain wards of the city were discovered it was the general belief that the names that were later stricken off by the courts had been placed on the lists to be voted on election day in the interest of the Stone-Flinn deal and all that it implies. And now, whether it is true or not, the popular belief has taken the form that, having been prevented from padding the registry lists to insure success, the Stone-Flinn managers are endeavoring to make good the loss by having the proper officers disfranchise as many as possible of the opponents of the Stone-Flinn combination, if, indeed, it had not been the intention of those who work the machine wires to both pad and disfranchise at the same time for "mutual political and business advantage." The people who believe these things true may be mistaken, but the tide of popular belief is running so strong that it looks impossible to make headway against it, and the result is likely to be that for every voter held to have been disfranchised the Stone-Flinn ticket will lose several votes. The declaration given publicity this morning, that of the receipts held up 1,000 are for voters in the Fourteenth ward, where the Stone-Flinn managers are making a fight for life against James J. Booth, will not tend to disabuse the popular mind of the impression that all the unfair means known to politics of the baser sort are being used against the candidates of the Citizens party. The stronger this belief becomes the dimmer grow the prospects of success for the Stone-Flinn combine. Whatever chance it may have had at the opening of the fight gives promise of being hardly large enough by election day to cast a shadow.

New Date for Inauguration.

At last it looks as though the presidential inauguration date would really be changed. Congress has begun to take notice of the advisability of moving it far enough along to make pleasant weather reasonably certain. Senator Hoar has introduced a bill making the last Thursday of April inauguration day. It was referred to Senator Hoar's own committee on privileges and elections, and as chairman of that committee Senator Hoar has reported it back. He says it is all right and ought to pass.

The American people seem to be more and more disposed to make the inauguration of their president an occasion of much rejoicing. They gather in the capital in large numbers on inauguration day. The important ceremony is an outdoor function. There is no reason, except repugnance, to making changes, why the date for this event should not be fixed at a time when it is pleasant to be out of doors. Repugnance to change ought not to stand in the way of a manifest improvement, and therefore the change contemplated should be made.

Miss Stone's Peril.

A reasonable explanation of the repeated failures of attempts to secure the release of Miss Ellen M. Stone, the abducted American missionary, comes from London, where Spencer Eddy is quoted as saying that the negotiations have taken on a serious phase. Mr. Eddy, who is charge d'affaires of the United States embassy at Constantinople, has been in touch with all the efforts to bring about the freedom of Miss Stone, and her friends will be more thoroughly alarmed by his explanation of the delay.

It has been apparent since shortly after the abduction that there was more than ordinary brigandage back of it, and the mystery is apparently solved by Mr. Eddy's expressed belief that the supposed brigands are really plotting Bulgarians who abducted Miss Stone for a political purpose. It is further believed that as she understands their language, and therefore is conversant with the political plot, they fear the consequences of releasing her, and, if possible, they will secure the ransom money and then kill the woman who has so long been in their custody.

This is the most plausible explanation that has yet been made concerning the complications and delays in the case of Miss Stone, and it is borne out by the persistent efforts of the would-be rescuers to secure possession of her before they pay the ransom. It is the peril of death that confronts the missionary, and it is now apparent that the utmost shrewdness and vigilance must be exercised to save her life. In the event of success there will be an opportunity for thorough probing of the plot, and the United States government will be enabled to place the responsibility where it belongs and take such action as the circumstances demand.

Abraham Lincoln's Birthday.

Abraham Lincoln, the anniversary of whose birth occurs today, will ever be a shining example to American boys of the possibilities that lie before them. His prospects in youth were distinctly discouraging. The obstacles in the way of his making even a living seemed to be well nigh insurmountable. His youth was one of hard work, with few opportunities to acquire an education. But he availed himself of all opportunities that came in his way. Reading matter was scarce, but he made the most of it. Fortunately, the few books he could obtain were the very best for the formation and cultivation of the oratorical style for which he became noted early in life. He had the Bible, Shakespeare, Burns' poems and Bunyan's "Pilgrim's Progress." This was a small library, but it was a very select one, and admirably adapted to the requirements of the young lawyer and statesman. Such newspapers and pamphlets and law books as he could get he read diligently, and he thought much on what he read. Moreover, he used his talent for public speaking when opportunity offered. His attainments of this sort were fortified by sterling integrity and the art of making friends. Gradually his circle of acquaintances widened and his influence grew, until his election to the presidency crowned his career. In this exalted station he proved a safe guide to the nation through the darkest years in its history, and will always be remembered with reverence as its martyr president.

The Master Painters.

Pittsburgh is again entertaining a national convention, that of the Association of Master House Painters and Decorators, and the large attendance of delegates is convincing proof of the importance of the organization represented. The annual reports of the officers show that the national association is making much progress, and is being steadily strengthened by the formation of subordinate bodies.

Such strides have been made in the painting and decorating of houses that it is with wonder the triumphs in that line today are compared with the crude efforts of a comparatively few years ago. The painters and decorators of today are artistic in design and execution, and their constant effort is in the direction of still greater proficiency and better results. The dauber has been relegated to the rear. As factors in promotion of the beauty and cheerfulness of homes the painters and decorators have become deservedly prominent, and to them a warm welcome is extended.

The Engineer Asleep.

The engineer of the train that was wrecked on the Fort Wayne railroad early on Monday morning has given a very simple and candid explanation of the cause of the disaster. He confesses that he was asleep. In that condition he ran past two signals. Asked how long he had been on duty, he answered thirteen hours. The question that therefore arises is whether a locomotive engineer who has worked thirteen hours on a stretch is to blame for an accident that takes place at the end of it, and what should be considered a proper day's work for an engineer to retain his faculties on the alert. It is recognized by railroad men and physicians the world over that the nervous strain upon an engineer is so great that eight or nine hours' work is as much as human flesh and blood can stand, and to exceed it is inviting disaster. While this is theoretically admitted by almost all railway companies, it is, as the history of railway disasters shows, continually disregarded in practice. The safety of the public and the welfare of the railroads demand earnest consideration of this matter.

That European Intervention.

It does not seem as if Mr. Henry Norman was serving the best interest of his country by dragging up again the eternal question of the proposed joint action by the European powers against us at the time of the Spanish war. He means well, no doubt, but it looks as if he were consciously seeking to lessen the heartiness of the national welcome which is to be extended to Prince Henry during his visit here.

Lord Cranborne stated in the house of commons yesterday that her late majesty's government never proposed through Lord Pauncefote any declaration adverse to the action of the United States in Cuba. This is perfectly well understood here, and it is not altogether unknown elsewhere. Spain did her best to obtain the consent of the powers to active intervention or a joint note of remonstrance. She was within her rights in doing so. England would not consent to any such proposal, and without her cooperation no other government would entertain it for a moment. Let it rest at that.

The international convention of women suffragists will open today at Washington. Susan B. Anthony will preside, Julia Ward Howe, Isabella Beecher the Rev. Antoinette Brown Blackwell and Elizabeth Cady Stanton, all prophets of the movement, will be present. The youngest of the speakers at the opening meeting will be 78 and the oldest 87. The leaders of the women suffragist movement in this country are all remarkable women. They have unhesitatingly sacrificed everything which the ordinary woman holds most dear to a cause, to a principle, to an idea. They have achieved little in a political way directly, it is true, but they have been not without influence in gaining much for the emancipation of womankind from the circumscribed sphere in which she moved when their agitation began.

The "Uncle Tom's Cabin" war has crossed from Kentucky into Tennessee, but they haven't begun to make it a political issue in Tennessee yet.

The Boers still have money to support political agents in the United States, although it looks like a poor investment to spend it in that way.

It looks as though those brigands will have to be coaxed real hard before they will condescend to accept Miss Stone's ransom.

But has the weather man secured the groundhog's consent to the promised leniency?

The hold-up men do not hesitate to kill when their victims are so inconsiderate as to resist.

In putting another geyser into action, the Yellowstone Park is striving to please.

England can produce a denial of pro-Spanish proclivities while the accuser waits.

William Watson poetically announces that he and the Boers are still unsubdued.

Those monday political missionary meetings are worth attending.

MILITIA WILL GUARD RUINS.

Arrangements Made to Handle Crowds of Holiday Visitors at Paterson, N. J.

PATERSON, N. J., Feb. 11.—Mayor Hinchliffe, Sheriff Sturr and Maj. Ross, commanding the militia, had a conference this afternoon at which it was agreed that the municipal and county authorities should give over to the militia the control of the burned district beginning tomorrow and lasting for the ensuing 18 days. The reason for this is that tomorrow being a holiday it is expected that several hundred thousand persons will visit Paterson, and the establishment of full military control was considered the best plan to avoid trouble. Outside the cordon line the police, regular and special, and the deputy sheriffs with the aid of detectives, will handle the crowds.

The work of adjusting the fire losses will commence tomorrow. The Paterson insurance union has established itself in ample quarters and clerks are already recording claims and giving information. A general meeting of the adjusters will be held at the offices tomorrow morning and the work will be systematized and payments begun within a day or two.

Militiamen on guard over the fire ruins during the night heard groans in a house just within the fire lines. They ran upstairs and found Charles Handley, a telegraph lineman, with his head crushed in. He revived sufficiently to say two men had attacked him. He then relapsed into unconsciousness and probably will die.

Under-River Trolley Trips in a Year and a Half.

THE PITTSBURGH GAZETTE BUREAU,
Herald Building, Herald Square.
NEW YORK, Feb. 11.

It is promised that within 18 months trolley cars will be running between Jersey City and New York under the Hudson river. This suggestion has been heard in modified form more than once. It was not until today, however, when the New York & New Jersey Terminal Company was incorporated, with a capital of $8,500,000, that the statement was made by no less an authority than William McAdoo, formerly assistant secretary of the navy, that the tunnel actually will come into working existence in less than a year and a half. There seems to be no reason why this prediction should not be fulfilled. Four thousand feet of the tunnel have been excavated and only 1,580 feet remain to be bored. Work can be done rapidly in these days, when there is plenty of money behind the enterprises. The tunnel would have been finished long ago but for a scarcity of funds. Now there is a great deal of capital at the disposal of the company and the tunnel will go ahead without let or hindrance when once it has begun. It is not easy to foretell the effect the tunnel will have on real estate values, particularly in Jersey City and other towns further away on the Jersey side. The river trip always has been a great obstacle to the development of New Jersey, and when it is possible to cross in a few minutes by a fast moving electric car instead of waiting for ferries to blunder sluggishly across, with all the possibilities of fog, ice and other obstructions, it may be that there will be a large exodus of commuters from this side. Some of the ferry boats are a disgrace to the river. The companies that own them hesitate to put a great deal of money into new boats when the ferry traffic is so uncertain a quantity in the light of present day schemes, and the passengers continue to suffer. The Pennsylvania railroad is a glorious exception with the Central railroad of New Jersey running second in the beauty and evident safety of the boats.

The Leeds' Yacht Launching.

William B. Leeds' handsome yacht, Normia, was launched today. It was christened at the same time by Mrs. Leeds, for whom it was named. The ceremony took place at Port Richmond, Staten Island, and although the wind blew shrewdly, no one seemed to mind the cold, under the bright sunlight and in the enthusiasm of the occasion. The big craft slipped down her ways easily and the launching was entirely successful. There were 2,000 spectators, 100 of them being invited guests of Mr. and Mrs. Leeds.

Patrick's "Hypnotic Eye."

Patrick, on trial for murder, is having but an indifferent time of it nowadays. The prosecution has sprung several surprises, none of which have been encouraging to Patrick. It is said that he has an hypnotic eye. He tries to bear out this idea by fixing his eye steadfastly on any witness who may mention the words "poison" or "chloroform" in the course of his testimony. Some of the court officers say that Patrick hypnotizes the witness generally, so that he cannot tell a straight story. The trial is somewhat monotonous, and if it were not for these little fairy tales the public would hardly read the proceedings at all.

The Veteran Fun-Maker.

Dockstader is with us again, and Broadway is all the brighter for his presence. He and Primrose, the veteran minstrel, are giving entertainments at the Victoria, and there is a merry crowd there every night to listen to Dockstader's jests, Primrose's smart sayings and songs, and Jose's high tenor ballads. Dockstader is one of the too few comedians who is as entertaining off the stage as on. He lives at the Hotel Marlborough, and there is always a rush of merry laughter to be heard when Dockstader is sitting in the reading room facing Broadway, which is his usual station. Everyone knows him, of course, and he is hale-fellow-well-met with everybody. But, then, Pittsburgh knows that.

February Holidays.

Lincoln's birthday will be celebrated generally in this city. There is no city in the country where the people take more willingly to a holiday, and it matters not much whose birthday it may happen to be, either. All the public offices, banks and similar institutions will be closed tomorrow, and Wall street will be dead until Monday morning. The theaters are getting ready for a big day and the Eden Musee, that haven of domesticity, will be crowded. With only ten days between Lincoln's and Washington's birthdays, and with St. Valentine's day thrown in between, the festive New Yorker is preparing to enjoy himself, even if the weather has been cold. The official forecast for tomorrow, by the by, is that it will be warmer and cloudy.

Dancing Till Ash Wednesday.

There are many dances tonight. The last day before Ash Wednesday is always celebrated with much merriment in this city, the chief peculiarity being that all fun is shut off at midnight, or is supposed to be. The city never looked brighter and more full of mirth than this evening—a suggestion of the carnival spirit of the Latin countries that helps to make old Broadway the cheeriest place in the world when the electric lights are on.

The Worm Turns on the Police.

Most persons who have lived in this city even for a few months have noticed again and again the wanton brutality of the police to push-cart peddlers. The poor fellows pay for a license and are allowed by ordinance to remain 10 or 15 minutes in one place before moving on. The police rush them perpetually, if any set of men have a dog's life, it is these doomed peddlers, who have paid the city for the right to get a living in the streets, and who are supposed to have paid some one for "protection," too, under the Tammany regime. A thousand peddlers drew up in front of the windows of the mayor's office this afternoon, while they sent a delegation in to interview Mr. Low. The delegation told his honor their troubles, and he, addressing them as "gentlemen," said he would see what could be done for them. The treatment of these men is an outrage, as any New Yorker will testify. Whether the mayor is strong enough to hold off the police, remains to be seen.

Grace Church Edifice to be Improved.

Grace church, the picturesque, ivy-covered edifice on Broadway at Eleventh street, is to be greatly enlarged this summer. The chancel is to be extended and other improvements will be made. Individuals have given $50,000 toward the substitution fund, and the congregation as a whole has added another $50,000. It is not a poor church, therefore. On the other hand, it does not like to lessen the allure of its dependents, that it spends its money easily, no matter how much may be subscribed.

A Place-Seeker Caught "Cribbing."

"Cribbing" in college, while a serious offense, is not followed by such severe punishment as is inflicted when the offender is undergoing a civil service examination. A man named Nathaniel P. Leipziger realized this fact today. He was caught using a "crib" while undergoing an examination for the place of advertising expert in the City Record. He was caught reading from some printed leaves cut from a handbook of general information, and if he had not been detected surely would have passed the examination with flying colors. As it was, his flight was a physical one down the stairs, with a slamming door behind him. Rule 10, governing civil service examinations, says specifically that any person found reading from any book or paper but an examination paper, will not be permitted to continue the examination. This man made a quick exit when detected flagrantly breaking the rule.

A Flaw in the Police Code.

How the regulations of the police department work to the detriment of the public, has been illustrated in a case of attempted burglary which was bloodied by an accident. A policeman at the Elizabeth street station had been delayed in going off duty, and as he walked along the street, he caught a man breaking into a tailor's shop, hardly a block from the police station. He was about to cart away a load of policemen's uniforms, when this blood officer came along, and after a chase, and firing a few shots from his revolver, caught the crook and locked him up. He turned out to be a professional. He knew the time in the night when there would be no police on duty under ordinary circumstances, and if this particular man had not been held back by pure accident, there would have been an annoying robbery for the detectives to worry over the next day. Evidently the rules of the New York police department need reform, and need it badly.

Understudy Gets Her Opportunity.

Milka Ternina was taken suddenly ill this afternoon. She was billed to sing Brunnhilde in "Die Walkure" this afternoon, but her place was filled lastily by Mme. Reuss-Belce. It was one of those cases wherein the long-waiting, patient understudy gets her chance when she least expects it. Mme. Reuss-Belce did exceedingly well in this trying part, and was applauded as loudly as even Ternina could have been.

Eager to See Pittsburgh.

M. Hughes le Roux, who comes as the lecturer of the Cercle Francais de L'Universite Harvard," was a passenger on the French liner La Gascogne, which arrived at this port from Havre today. After giving a series at the Cambridge university M. Hughes le Roux will visit many other cities, delivering about 100 lectures in universities and elsewhere. He may visit Pittsburgh if he can arrange his engagements to that end. Like every other foreigner coming here for the first time, he is eager to see that city of wonderful inventions and tremendous achievements.

Unappreciated Courtesy.

Jersey commuters are getting a little tired of the "politic burglar" fad. Every funeral that breaks into a house or tries to sneak something out of an ironsafe hall is sure to bow politely if caught and to ask after the health of the family as he is turned over to a policeman. Householders say they will resent the savoir faire of the sealawags with a bullet or club hereafter. "Hang their politeness!" said one indignant Broadway merchant today. "Who the deuce wants it?"

A Busy Man.

Among the busiest men in New York, on account of the approaching visit of Prince Henry, is Herman Ridder, secretary of the New York Staats-Zeitung, which will give a dinner to American newspaper editors and correspondents in honor of Prince Henry at the Waldorf-Astoria on the 26th. Mr. Ridder is a tall, powerful man of middle age with a great capacity for work. He says, however, that his job of arranging for the sitting down of 1,500 people to dinner gives him all he wants to do. His mail is enormous, and the telephone is after him every few minutes all day. He contrives to keep a smiling face and genial manner through it all, and is a very accessible man, considering the responsibilities resting upon him. His room is just inside the big business office of the Staats-Zeitung, opposite the entrance to the Brooklyn bridge, and there is less ceremony over getting to him than one finds in many of the municipal offices where insignificant understrappers are keeping their finger dignity warm at the taxpayers' expense.

One Smooth Wheel in the Machine.

One of the public offices in New York where the citizen is sure of courteous and considerate treatment is in the department of assessments, in the Stewart building, where errors are straightened out and the business or professional man may "swear off" his taxes if his conscience permits. There is a polite policeman, with gray hair and spectacles, to show you in, and two urbane ushers, one a colored man, to point the way and call you to the sanctum of the commissioner or his representative with the least possible delay. As is usual in all offices where one has anything to do with taxes, whether in New York or Pittsburgh, one must wait his turn, usually with half a dozen persons ahead at the beginning, but the business is done so expeditiously and smoothly that the ten or fifteen minutes of waiting is not irksome, and the citizen, after a short interview with the commissioner, quite as pleasant as a chat with any private business man, goes out to the street with a better opinion of the municipal machinery, so far as this office is concerned, than he could think possible before he entered.

Plodding of the Peds.

The peds going around the track at Madison Square garden seemed to have settled down to their work tonight. Several teams have dropped out and others may go before the race has far advanced, but most of the men in the race look grimly determined, and they swing around with the regularity of a many-colored machine. Very little interest is manifested in the race, if one judges by the attendance. It was very small today, and did not pick up much even this evening. A walking match is not so exciting as a bicycling contest, because there are no headlong sprints at intervals to stir things up. It is just plod, plod, plod, and it gets tiresome to the spectators, as well as to the walkers, after a while. It is possible that there will be more enthusiasm toward the end of the week, especially if the race should be close. That is what the managers anticipate, at all events.

Pleading for Votes.

Mr. Bingham, a merchant of Houston, Tex., was registered at the Hotel Henry last night. In speaking of the oil development in the Lone Star state he said: "The money recently made in oil by many of the immediate vicinity of Beaumont has had no bad effect on farmers throughout the state. Where the production is there remains still considerable excitement, but it has not extended generally to other districts. Steps are now being taken by the J. M. Guffey Petroleum Company to extend pipe lines to all the large cities of Texas, and one is now in the course of construction from Beaumont to Houston, a distance of 80 miles. Money at the present time is cheap in Texas and it appears to very plentiful. Texas formerly depended on cotton and corn, as their chief agricultural products, but since the rice growing industry has been introduced in the state many of the farmers are producing it in large quantities. Two model rice mills have already been built and another is contemplated for Houston."

J. Frank Chartoe, a celebrated New York artist, is in Pittsburgh and was registered at the Hotel Lincoln last night. "Pittsburgh should have the new art school recently suggested for it in county by Edwin Austin Abbey," said Mr. Chartoe. "Mr. Carnegie practically says that the present interest in art in this city and would in all probability contribute largely to the school if it were located here. The Latin quarter of Paris is so crowded with Americans striving to reach fame in art that necessity demands that a school for art equal to any in the world be located in this country. Of course, all New Yorkers will argue that the institution should be located in the metropolis, but at the present time Pittsburgh appears to be forging ahead more in art and scientific lines than New York."

"The nobility of all Europe are eagerly watching the American plans for Prince Henry's visit to this country with great interest," said Harry J. Falconer, a Chicago business man, who is returning from a European trip, at the Hotel Schenley last night. "The entertainment of the prince will be greater and on a more elaborate scale than that of King Edward when he visited the United States as prince of Wales. It will surpass in all brilliancy the entertainment of Li Hung Chang. Prince Henry's visit will tend to promote a more friendly feeling between the United States and Germany, and if nothing transpires to mar it, may be the cause of other celebrated royal personages visiting the United States in the next few years."

Fifty-three members of the Crescent lodge, No. 356, F. & A. M., attended a stag euchre at the Hotel Henry last night. The committee in charge of the affair was composed of William M. Furey, Thomas Chester, George H. McCaslin, D. W. Dunlevy and J. V. Swoyer.

P. M. Fitzgerald, who has been in Norfolk, Va., attending the annual convention of Indians, has returned home.

PERSONALS.

Wu-Ting-Fang spent an hour at Union station last night en route to Grand Rapids, Mich., where he goes as the guest of United States Senator McMillan. There were about 12 members in his party, including Senator McMillan and attaches of the Chinese legation at Washington.

The party traveled in the private car Dora and arrived at the Union station at 7:30 o'clock. Immediately after their arrival Senator McMillan and Minister Wu alighted from their car and inspected the new station very carefully.

The depot was crowded with passengers last night and when Senator McMillan and distinguished guest reached the interior of the depot Minister Wu was at once recognized by many persons in the crowd.

After parting each and forth through the station several times Senator McMillan and Minister Wu went outside. Here the latter were met by a party of newspaper men, and the Chinese minister frowned as he learned their business.

"What do you think of the new station?" was the first question propounded by a newspaper reporter. "It is very fine, indeed," said Minister Wu. "It is pretty inside, but dark and gloomy on the outside. How much did it cost?" When told the total cost of the depot would be approximately $3,500,000, Minister Wu exclaimed, "Oh! I had almost forgotten, this is Mr. Carnegie's city."

"Why don't you clean Pittsburgh up?" he continued. "It is just as black and smoky as when I was here last. Do you still burn natural gas?"

"How is President Roosevelt's son?" was his next question. When told he was much better according to the latest press reports from Groton, Minister Wu said: "Better, I am very glad to hear that."

Minister Wu halted at the car steps and stated to reporters that he did not wish to be interviewed.

"I am going to Grand Rapids," he said, "as Senator McMillan's guest and will deliver one or more addresses in that city."

"What do you think of Prince Henry's proposed visit to the United States?" was asked of the Chinese statesman.

"Wait until he arrives" was his reply."

"Is Mr. Carnegie's new polytechnical school started yet?" Minister Wu was informed it was not and the question was asked him.

"What are the latest developments in the Chinese exclusion act, Mr. Wu?"

"Ask congress," was his curt reply as he swept into his private car to partake of a good American dinner.

M. Dinzing a merchant of Houston, Tex., was registered at the Hotel Henry last night. THE DEATH ROLL.

Thomas Robertson.

Thomas Robertson, aged 60 years, for many years connected with business enterprises of this community, died Monday night at his home, No. 2 Observatory avenue, Allegheny. Death followed with paralysis a short time ago, he had taken an active part in the business world. The latest illness was of eight days' duration. Mr. Robertson was born October 21, 1841, in Allegheny, a member of the old Robertson family, pioneer settlers of the North Side. When the suspension bridge was at its height he was a worker of the iron of Shadden & Robertson, one of the largest concerns of its kind in the country. He was connected with the Pittsburgh Bridge Company and was a partner in the Pittsburgh Forging Company and was a prominent merchant. He is survived by his widow, three daughters, Mrs. A. Mills Byrd, Minnie A. and Fredonia M., and three sons, Harry A., George W. and William H.

Daniel M. Shreffler.

Daniel M. Shreffler, aged 58 years, for many years a resident of Pittsburgh, died last night at the home of his brother, William Shreffler, No. 428 South Atlantic avenue, East End. Mr. Shreffler was born in Perry county, and came to Pittsburgh when a young man. He has continued his residence in Pittsburgh for 30 years. At the outbreak of the rebellion he enlisted in the Hungarian battery and served throughout the war. He was a member of the Fourth Presbyterian church. He never married. He is survived by a sister, Mrs. Catherine Shreffler, of this city, and two brothers, Joseph Shreffler, of Telegraph, Pa., and Peter Shreffler, of Duncannon, Perry county. The funeral will take place tomorrow afternoon at 2 o'clock.

Mrs. Mary Jones.

Mrs. Mary Jones, aged 78 years, widow of John W. Jones, died at the home of her son, W. H. Jones of Glenshaw, on Wednesday morning after a lingering illness. She was born in Cambria county, and has been a resident of Glenshaw and vicinity for many years. She was a member of the Congregational church. Four daughters, Mrs. Rosa Pyke of Pittsburgh, Margaret Jones of Ebensburg, Pa.; Mrs. Mary A. Tuffee of Millvale, Pa., and Miss Elizabeth Jones of Indiana, Pa., and two sons, W. H. Jones of Glenshaw and William P. Jones of Pittsburgh survive her.

Mrs. Emma Briggs.

Mrs. Emma Briggs, aged 58 years, wife of Samuel Briggs, died at her home at Wilkinsburg yesterday morning of pneumonia. She was born in England and came to this country 30 years ago, coming near Hollidaysburg, where she lived until two years ago, when she removed to Wilkinsburg. Deceased was a member of St. Stephen's Episcopal church. Besides Mrs. Briggs is survived by her husband, three sons, Frederick, Ernest and George, and three daughters, Anna and Martha, at home, and Mrs. Charles Parker of Hollidaysburg.

Hollis L. Slater.

LAYPORT, Pa., Feb. 11.—(Special.)—Hollis L. Slater, aged 25 years, died at his home in West Latrobe yesterday afternoon after a lingering illness. Mr. Slater was formerly connected with the H. C. Frick Coke Company at Latrobe, but for the past two years he has retired from business on account of ill health.

W. H. Dawson.

YOUNGSTOWN, O., Feb. 11.—(Special.)—W. H. Dawson, aged 71 years, editor of the Youngstown Vindicator, died tonight, after an illness of several months. For nearly 50 years he was connected with newspapers in Mahoning county. He was a lifelong Democrat, and well known throughout the state.

The Rev. J. H. H. Brooks.

GIL CITY, Pa., Feb. 11.—The Rev. J. H. H. Brooks, pastor of Christ's Episcopal church for 19 years, died at his home here tonight. He was 59 years of age, and was born in Livingston county, N. Y. His widow and two children survive him. He was a member of Petrolia lodge, F. and A. M., this city.

John Shanley.

John Shanley, aged 65 years, until recently for the McKeesport Connecting railroad, is dead at his home in Evans avenue, McKeesport, of pneumonia. He was born in Ireland and came to America in 1850, moving to McKeesport from Pittsburgh 30 years ago. He is survived by one son and five daughters.

Mrs. Lucy H. Tambes.

ASHTABULA, O., Feb. 11.—(Special.)—Mrs. Lucy H. Tambes, a granddaughter of Samuel Huntington, the second governor of Ohio, is dead. She was one of Ashtabula's prominent women. Her ancestors were among the earliest pioneers of the Western Reserve.

The Rev. William Stiff.

TOGONOXIE, Kan., Feb. 11.—The Rev. William Stiff, pastor of the Carnahan church at Ridgeland and Tecumseh, died today, after a two weeks' illness. He came here from Canada.

BALLOTING GOES ON LIVELY FOR TEACHERS' TOUR

Votes of Second Series Are Pouring in Within the Time Limit.

THIRD GRAND DIVISION

Ninety-Six Candidates Outside of Allegheny County Voted for During First Series—Rules That Govern the Contest.

While the balloting was lively in the teachers' contest for the splendid tour of Europe offered by The Pittsburgh Gazette and The Chronicle Telegraph during the first series, the voting is much livelier in the second. Series B is coming in briskly, which is entirely proper, as all ballots of that series must be deposited before midnight next Saturday. The tour is a prize of too great value to jeopardize success by neglect to get in the votes in time to have them counted.

In addition to names printed yesterday and day before there is a list today of the candidates in the division outside of Allegheny county. This division has seven to elect. The 96 named below were voted for during Series A and some candidates have entered the contest with Series B, for which the ballots are now coming in. It is probable some may start with series C, as there is no insurmountable obstacle to their success.

Miss Ada M. Eggers, Thirteenth ward, Allegheny, was erroneously accredited to the Twelfth ward in list published Monday.

A typographical error yesterday made the name of Miss Bertha Clements, Oakmont, read Clemens.

Following are the names and addresses of the 96 Series A candidates outside of Allegheny county:

Rules to Be Observed.

Ballots must be voted in series; those of one series must be deposited before midnight of the day the succeeding series closes. They must be filled out legibly, with full name of teacher, school where employed, town and county. They should be kept in good condition and sent in flat, not rolled or crumpled. If torn or mutilated they will not be counted.

The tour will be of more than six weeks' duration. Starts at Pittsburgh July 2; leaves New York July 5. Allan Royal Transport line steamer, arrives London July 15; Antwerp, July 19; Brussels, July 20; Amsterdam, July 22; Cologne, July 24; Mayence, July 25; Heidelberg, July 26; Lucerne, July 28; The Rigi, July 29; Interlaken, July 30; Paris, August 1; London, August 6; Highlands, August 8; Glasgow, August 8; leaves Glasgow by another Line steamer Columbus, August 9; expect to arrive in New York August 17.

Who Will Be Taken.

The party will be composed of 25 teachers of the public schools, i. e., persons engaged in teaching in schools supported by public funds. These will be apportioned as follows: Twelve from the cities of Pittsburgh and Allegheny, etc. from Allegheny county outside of the two cities, and seven from those parts of Pennsylvania, Ohio and West Virginia outside of Allegheny county, but within the territory covered by the daily deliveries of The Pittsburgh Gazette and Chronicle Telegraph. They will be elected by the readers of these papers. Those having the largest votes in their respective divisions will be declared elected.

All expenses of the tour will be borne by The Pittsburgh Gazette and Chronicle Telegraph and those papers will give each member of the party $50 in cash to gratify individual tastes. Regular issues of the papers will accompany the party to arrange routes and look after the comfort of the guests.

The contest will close May 31, and the result will be announced as soon after all of the votes are in as possible. Ballots from The Pittsburgh Gazette and Chronicle Telegraph will count one vote each, and those from The Sunday Gazette will count for three votes each. The ballots will be found on the top of the second page in each issue, and attention is directed to the terms and conditions printed thereon. The whole ballot, including border, must be sent in.

HARMARVILLE VISITED BY FIRE THIS MORNING

Continued from First Page.

ice, and the building was packed to the roof. After the flames had completed their work of destruction a great pile of ice was left standing in the center, that around the walls having been melted.

About 2 o'clock this morning the wind veered around and began to come from the north, and perhaps this is all that saved the town. At 2:30 the fire was practically under control, and a huge smoldering mass of ashes and bricks marked the place where the distributing company's plant was located.

Several small buildings, owned by the West Penn railroad and the distributing company, were also destroyed. These were used as tool houses and repair shops.

Residents Moved Furniture.

For two hours the citizens, who had been aroused from their slumbers, were in mortal fear that their homes would be destroyed, and many families had begun to remove their furniture. Just east of the blazing plant are about 25 frame dwelling houses, and the occupants of these places had given up all hope of saving their homes and had taken much of their furniture from the houses.

The loss to the Duquesne Distributing Company's plant, with stock, is about $80,000. The First Methodist Episcopal church, which was built several years ago at a cost of $3,500, is totally destroyed, and with the church furnishings, their loss is placed at $5,000. John Thompson's store and postoffice, with their stock, will cause a loss of about $1,500. The loss on the ice plant is estimated at $2,000. It is estimated that losses on smaller buildings will amount to over $5,000. All the papers and records of the distributing company, church, and postoffice were destroyed in the flames.

MAN AT THROTTLE ASLEEP.

Engineer of Train Which Caused Loss of Life and Property Says He Was Overworked.

William Jackson, engineer of locomotive No. 695, which caused the wreck at Haysville on Monday morning, was asleep and is alone responsible for the killing of Maurice Burke and the loss of the engine, 14 cars and hundreds of head of stock. He acknowledged yesterday that he was asleep and had run by two block signals. He said that he had been on duty 13 hours.

The inquest was commenced yesterday by Coroner McGeary. After Jackson had acknowledged that he was asleep at the time of the wreck the case was continued until Friday, so more witnesses can be on hand. Jackson was not arrested. He promised to be present at the inquest. Jackson, if tried and found guilty of negligence, may be sentenced to serve two years in the penitentiary for involuntary manslaughter.

PITTSBURGHERS PRESENT.

The National Clothiers' Association Holds Annual Convention and Banquet at Baltimore.

BALTIMORE, MD., Feb. 11.—The annual convention of the National Clothiers' association was held this afternoon at the Phoenix club in this city. President Marcus M. Marks of New York called the meeting to order and read his annual report. The reports of Secretary Samuel Fleischman of New York and Treasurer Herman Blumenthal of Philadelphia were also submitted. Delegates were present from New York, Buffalo, Rochester, Philadelphia, Pittsburgh, Cincinnati, St. Louis, Chicago and Baltimore. The principal business of the convention will be the election of officers and a discussion of amendments to the bankruptcy law. It is probable that President Marks will be re-elected.

A banquet will be given to the delegates tonight by the local association, at which addresses will be delivered by United States Senators L. E. McComas and P. J. Dubois, Congressmen L. E. Livingston and F. W. Mondell and Gov. Smith of Maryland.

Put the seal of condemnation on the sale of Pittsburgh.

WARMER WEATHER COMING.

The West Is Now Enjoying It and Wave Is Headed This Way.

Warmer weather is predicted for Pittsburgh this afternoon or Thursday morning. Throughout the west the mercury has risen and the wave is moving eastward. While it will be noticeably warmer the thermometer is not expected to go above the freezing point. Cloudy weather and flurries of snow will accompany the change.

EASTERN MILL WORKERS TO JOIN AMALGAMATED

The Combination Will Be Settled at the Wheeling Convention in April.

TROUBLE MAY FOLLOW

It Is Expected That a Demand Will Be Made That Eastern Manufacturers Establish a Wage Dependent on the Western Scale.

The Amalgamated association has arranged to take over almost in a solid body the mill workers of the east, working chiefly in the Lehigh valley and numbering about 10,000. These men, organized as federal lodges of the American Federation of Labor, were on a strike lasting 15 weeks last summer with the result that they secured a wage concession, based on a puddling rate of $4 25 a ton.

This rate at that time gave them the tolling price with the old customary differential under the rate in Pittsburgh and western mills. Before this strike some of the men were working on a puddling rate of $3 a ton. Their conflict attracted little attention here, being overshadowed by the strike of the Amalgamated association mill workers.

Eastern Puddling Rate Low.

The strike at the eastern mills started May 9 and under the settlement most of the employers agreed to a basing rate for puddlers at $1 a ton less than the rate then ruling for the Amalgamated men. With the transfer of this body of men to the ranks of the Amalgamated association it will devolve upon the association to establish wages with no greater than this $1 differential and which has been lost sight of since the settlement.

The annual convention of the Amalgamated association at Wheeling in April is to settle this matter. It is expected that the eastern mills can be brought to recognize the sliding scale of the Amalgamated association observed by the Republic Iron and Steel Company and other interests.

No Conflict Anticipated.

No conflict is anticipated with the mill owners of the Lehigh valley and other points of the east, but the Amalgamated convention is expected to insist on a wage dependent on the western scale for these eastern mills.

Thomas H. Flynn, national organizer of the American Federation of Labor arrived in Pittsburgh yesterday after a trip among the mill workers of the east. The mill workers of Douglassville have already arranged to transfer their Amalgamated Federation of Labor charter for a charter of the Amalgamated association. Four lodges at Reading and others at Lebanon, Birdsboro, Pottstown and other mill centers of the east have arranged to make the same changed, formal action only being necessary. In all these mills there are 12,000 men organized.

New Organization Coming.

Of this number 2,000 are tube workers, and they will probably be affiliated with the new national organization of tube workers, which is to be a part of the American Federation of Labor, and which is to be launched at a convention in Pittsburgh next month.

On his eastern trip, Mr. Flynn adjusted the strike of the textile workers of the Enterprise Silk Company, Reynoldsville, Pa. The workers there, numbering 320 and chiefly women, had been on strike for five months. The settlement provides for the arbitration of a wage rate to be adjusted from the average of wages paid at other factories of the same class.

Strikers Taken Back.

Under the settlement, Mr. Flynn said yesterday that the striking employes were given back their places, those who had been substituted being discharged. While on his trip Mr. Flynn also organized a central council of the Federation at Lebanon, which includes ten trades.

Arrangements are practically complete for the convention at Wilkesbarre, Pa., opening March 10, which is to form a state organization of the Federation of Labor. All central organizations of the Federation in the state have accepted the invitation to send delegates as well as all local organizations directly affiliated with the Federation and known as Federal unions.

HIS ROSE HAD ITS THORN.

Father of Triplets Not Altogether Happy, for He Now Has Housework to Do.

Iote Wajonwtz of McKeesport is the father of triplets. Since their birth last Saturday morning he has also been cook and scullion for the big boarding house formerly conducted by his wife at No. 403 Sheridan street. He gave up his work as a laborer at the National tube works in order to find time for these household duties.

Last night, just as he finished washing the supper dishes, he made this comment on his somewhat unusual distinction:

"Three babies no good. Too —— much work."

The youngsters, one boy and two girls, are healthy-looking and there seems every prospect that they will live. Their combined weight at birth was 19 pounds. The mother is about 40 years old and of robust constitution. She continued her work of cooking and caring for 10 boarders until Friday night. She expects to resume her duties within a day or two. Wajonwtz is 45 years old and is of huge frame.

Pretty Children

"We have three children. Before the birth of the last one my wife used four bottles of MOTHER'S FRIEND. If you had the pictures of our children, you could see at a glance that the last one is healthiest, prettiest and finest-looking of them all. My wife thinks Mother's Friend is the greatest and grandest remedy in the world for expectant mothers."—Written by a Kentucky Attorney-at-Law.
MOTHER'S FRIEND prevents nine-tenths of the suffering incident to childbirth. The coming mother's disposition and temper remain unruffled throughout the ordeal, because this relaxing, penetrating liniment relieves the usual distress. A good-natured mother is pretty sure to have a good-natured child. The patient is kept in a strong, healthy condition, which the child also inherits. Mother's Friend takes a wife through the crisis quickly and almost painlessly. It assists in her rapid recovery, and wards off the dangers that so often follow delivery.

AN ORDINANCE—Regulating street parades, processions and street assemblies.

Section 1. Be it ordained and enacted by the select and common councils of the city of Allegheny, and it is hereby ordained and enacted by the authority of the same, That all street parades, processions and street assemblages, excepting marching or passing upon any street, alley, highway, wharf or public square of the city of Allegheny to the exclusion or interruption of other citizens in their individual right of the use thereof, excepting bodies of the United States Army or Navy, the national guard of the state of Pennsylvania, funeral processions and the fire and police forces of the city of Allegheny, are forbidden, unless permission be granted therefor by the superintendent of the bureau of police, which permission shall only be granted upon written notice of the object, time, route or place of such procession, parade or assemblage, and the character and purpose thereof, and the names and places of residence of the officers of the same being given to the said superintendent of the bureau of police by the chief officer thereof, not less than twenty-four hours previous to the forming, marching or assembling; said, to prevent the business interests of the citizens, prevent delay in travel and preserve the peace and good order of the city, the said superintendent of the bureau of police shall have the power, and it shall be his duty, subject to the approval of the director of the department of public safety, to designate such procession or parade, how much of the streets, lanes, alleys, highways, wharves or public grounds it can occupy and to assign to such assemblages such place or places as in his judgment will least interfere with the rights of the public, and, if parade or procession, the time of starting, the length of time such parade or procession, and the route of such parade or procession shall be determined upon by the superintendent of the bureau of police and approved by the director of the department of public safety; and when so designated and approved the proper officers of said parade, procession or assemblage, shall be responsible that the designation and limitation set out are observed and complied with, and it shall be the duty of the said superintendent of the bureau of police to furnish such escort as may be necessary to protect persons and property and maintain the public peace and good order of the city.

Sec. 2. Any person or persons violating any of the provisions of this ordinance shall be punished by a fine of not less than twenty-five dollars nor more than one hundred dollars for each offense, and in default of payment of said fine and costs, shall be committed to the common jail of Allegheny county or the Allegheny county workhouse for a period of not more than thirty days.

Sec. 3. That so much of any ordinance as may conflict with or be supplied by the foregoing, be and the same is hereby repealed.

Ordained and enacted into a law in councils this 4th day of February, A. D. 1902.

Hot Hockey for the Championship.

HOCKEY HONORS OF LOCAL LEAGUE ARE STILL OPEN

P. A. C. Defeated Keystone by Score of 3 to 2 in Hot Game.

VICTORS WERE SPEEDY

Had Better Team Play and Were More Aggressive—John Nilsson Lowered the World's Half-Mile Skating Record.

HOCKEY STANDING.

	Won.	Lost.
Keystone	7	4
P. A. C.	6	6
Bankers	4	6

Before the greatest crowd of the season, and in one of the hardest fought hockey battles ever decided at Duquesne garden, the P. A. C. champions of the ice game ever since its introduction here defeated the Keystone leaders of the league by a score of 3 to 2, and by one point over which there was a big dispute, prevented the losers from clinching the honors for the present year. The red and white skaters thus preserve a chance both for themselves and the Bankers to get win the honors, though it is a very slim one.

Either P. A. C. or Bankers, to win the championship now, must win all remaining games of the season, while Keystone must not again be allowed to taste the fruits of victory. The Bankers have four games yet to play and the Keystones and P. A. C. teams each three.

Well Earned Victory.

P. A. C.'s victory last night was well earned, as the red and white boys played the fastest and most aggressive game, though it is much to be regretted that there was a dispute over the deciding tally. Shields, who played a strong game throughout, shot the rubber after receiving it from Smith and Goal Judge Campbell was positive that it went in. Keystone insisted that another goal judge be put in and Richardson went in for the five minutes of the game remaining. P. A. C. played the best hockey throughout, being faster on the offensive and forcing most of the game on the Keystone ice. What really lost the contest for Keystone, however, was the leaders' defense game, which has hitherto been more responsible than anything else for giving them their position. Though Hern made some good stops, he has played better games. The first P. A. C. goal was scored while he was for a moment out of his position in a misjudged effort to check Shields.

Irish, however, was the real weak spot in the Keystone defense and seemed totally unable to check or break up the P. A. C. rushes. If it had not been for Morphy's stubborn play at point, there would be dozens have been more scores for the victors.

As for the offensive Morrison did not play the speedy game he is capable of and as nearly all Keystone's scoring has been done by Sixsmith and Morrison, his work was the big item. He seemed to be a mark for the P. A. C. skaters and was thus handicapped. The game was quite rough, but all offenders were summarily dealt with.

Westcott played his usual plucky and aggressive game, while Weil and Dunkability on the Keystone part to get any effective team work started and Peel, though out of his position, played a grand game and scored both goals. For the victors Jerry Curtin scored the pretiest goal of the game, and throughout, while Smith's strength always goes without saying. Reynor played fast hockey and Jigger Robinson played a very fast game though lacking a little in judgment at times.

First Half in Keystone Favor.

The first half ended with the score 2 to 1 in Keystone's favor. The first goal was scored in five minutes after start of play by Shields, who got from Reynor. These two with Smith exhibited the fastest kind of team play in bringing the puck down Peel and the score with the prettiest shot of the game from the far left at almost difficult angle after carrying down all by himself. Weil, a few minutes later, easily carried the puck down himself and effect from almost the same spot. The puck this time hit Hamilton's leg and caromed in.

Ten minutes after the opening of the second half Curtin carried the puck the full length of the ice on a pretty rush, and scoring a way from Sixsmith and doubling Shields shot a hard, unerring goal past Murphy and Hern.

In the intermission John Nilsson lowered the world's half mile record going in 1:09 flat, to time of three watches. His performance under record made in Montreal, was 1:24, while his outdoor straight away was 1:23 3-5. Four and a half times around the ring constituted a half mile and Nilsson performed the remarkable feat of the first two laps in 39 seconds. Line-up:

P. A. C.		Keystone
Lamb	Goal	Hern
Hamilton	Point	Morphy
Curtin	Rover	Bird
Reynor	Center	Sixsmith
Robinson	Forward	Morrison
Shields	Left Wing	Peel
Smith	Right Wing	Westcott

Referee—Dr. King. Goal judges—Garrett, Campbell and Richardson. Goals—Peel 2, Curtin 2, Shields. Benched for rough tactics—Hern, Curtin 2, Morrison, Reynor, Smith 2.

THE REVISED RULES.

The Joint Committees Completed the Work—Many Changes Recommended for Adoption.

BUFFALO, Feb. 11.—The members of the different baseball associations who are revising the playing rules resumed their work this morning. Following is the text of sections 3 and 4 of rule 44, defining a strike, as finally adopted:

"Section 3—A foul hit ball not caught in the air, unless two strikes have been already called, which falls on fair ground inside or on the line of the territory described by lines drawn from first and third bases at right angles with an imaginary line drawn from home to second base and extending on each side to the limit of the playing field.

"Section 4—Any attention or effort to hit the ball in foul ground outside of the lines of the territory described by lines drawn from first and third bases at right angles with an imaginary line drawn from home to second base and extending on each side to the limit of the playing field."

A change in rule 17, adopted last night, it was found, would prevent the catcher going for foul balls, and consequently the words "and at all times during the game," at the end of the section, were ordered stricken out.

Section 2, of rule 32, was also corrected by adding the words "of a baseman," so that it now reads: "The umpire shall call on the pitcher each time he delays the game by failing to deliver the ball to the batsman when in position for a longer period than 20 seconds, excepting that in the case of the first batsman in each inning, the pitcher may occupy not more than one minute in delivering not to exceed five balls to a batsman."

Rule 68 was eliminated. It prohibited the use during the game by manager, captain or player of indecent or improper language directed to a spectator, umpire, manager, club official or a player.

Section 4 was added to rule 47, as follows: "Section 4—If while he be a batsman without making any attempt to strike at the ball his person or clothing be hit with a ball from the pitcher, unless in the opinion of the umpire he plainly avoids making any effort to get out of the way of the ball from the pitcher and thereby permits himself to be so hit."

The members then adjourned subject to the call of Chairman Kilfoyle.

WOULDN'T TAKE IT ON GOLD PLATTER

W. C. TEMPLE IS TOO BUSY TO FOOL WITH BASEBALL.

Secretary Pulliam Gets Back from Florida and Brings a Bunch of Golf Sticks. Manager Clarke the Victim of a Knockout.

W. C. Temple of this city, who A. H. Soden of Boston suggested as a compromise candidate for the National league presidency, would not accept the position if it was handed to him on a golden platter. This is the assertion of Secretary Harry Pulliam, who returned yesterday from an extended trip to Florida, and as Mr. Pulliam spent the major portion of his time playing golf with Mr. Temple he certainly should know whereof he speaks.

Secretary Pulliam got back from his winter vacation looking as browned as a berry and carrying with him a bag of golf sticks and five additional pounds of avordupois. A portion of Mr. Pulliam's time was spent at his parent's home in old Kentucky, but the longer part of three months were spent in Florida. The secretary is enthusiastic over the land of oranges, and says that Mr. Temple's winter home at Palm Beach is a perfect dream. The well-known Pittsburgh lover of sports has became an absolute golf fiend, and spends most of his time at the fascinating out of door sport. He is in excellent health, and will remain in Florida until the middle of May. As for the National league presidency Mr. Temple would not touch it.

Change of Rule Not Liked.

Manager Clarke was thoroughly disappointed at the action of the joint rules committees in session at Buffalo over their action in revising the foul strike rule. He says, however, that they can only recommend a change, but it will be another thing to have the league adopt the suggestion, and in this he is backed up by President Dreyfuss. The change suggested by the committee does not leave the rule as it was two years ago, but modifies it so as to leave it discretionary with the umpire when the ball is hit foul to any part of the outfield.

Manager Clarke's interpretation of the change is that last year's rule is still in force, so far as it applys to any ball batted inside of an imaginary line extending from third to first base, but beyond that line the matter is left to the discretion of the umpire. This he thinks will cause the same trouble as before, when the umpire had the power to call strikes for the intentional fouling off, but refused to do so. He says that last year's rule, which made any foul ball a strike was by long odds the simplest and best rule ever adopted.

Pirates Leader Was Knocked Out.

If the Pirate's aggressive leader is not a bit careful his love for hockey and skating is liable to find him a berth in a hospital. He had an experience yesterday out at Duquesne Garden, and admits that for the first time in his life he was put out good and hard. Manager Clarke was out on the ice passing a bunch of speed skaters and was going at a merry clip when he collided with a boy who was playing hockey. The boy's head caught the Pirate manager at a point on the chin and Manager Fred went down for more than the limit. His fellow skaters carried him to a bench and rubbed him back into consciousness, but he was carrying an awful dose of headache all yesterday afternoon.

THE CHESS MASTERS.

Pillsbury Won and Napier Lost a Game.

MONTE CARLO, Feb. 11.—Round six of the international chess tournament was played today, the pairing being governed by round 14 of Berger tables. Tarrasch and Schiffe had byes. As the first adjournment only three games had been finished and in these Popiel defeated Napier while Schlechter and Marco and Janowski and Eisenberg had draws.

The following additional results were registered this afternoon: Mason lost to Pillsburg, Maroczy beat Reggio, Marshall worsted Mortimer, Wolf and Teichmann adjourned their game, as did Tschigorin and Albin, while Mieses and Gunsberg drew.

W. U. P. Beat Shadyside.

The W. U. P. sophomore basketball team defeated the Shadyside academy team on the university floor yesterday afternoon by a score of 15 to 12. The game was a fast one. S. S. A. went to Observatory hill with the hopes of winning and played hard, but the sophomore team was too much for them. The first half ended with the score of 8 to 7 in S. A.'s favor. The W. U. P. boys took a brace in the second half and fought hard. Gormley played a fine game against his opponent. Prof. Stroud shot the two winning goals. Newland did good work for S. S. A. Many fouls were called as a result of rough play. Score and lineup:

W. U. P. '04.		S. S. A., '12.
Gormley	R. F.	Carothers-Hill

WHEELING—River 6 feet 8 inches and falling. Ice thinning out. Weather clear and cold.

HAWK BEING FLOATED.

The Boat Will Be Repaired at Monongahela—Break-Up Coming.

The towboat Hawk, which several weeks ago struck a submerged section in the Monongahela river at the Black Diamond coal works, five miles above Monongahela, Pa., and sank, has been partly raised and it is thought will be afloat in a few days. After the boat sank it was carried down the Monongahela to the town of that name, and the boat will be repaired on the bank at that place. The craft is not thought to be seriously damaged.

Rivermen are now looking for a break-up in the local streams and if the prediction of the weather bureau officials is fulfilled, there ought to be a good rise in the streams within a few days. There are a number of coal loaded boats, and while a number of towboats are at present down the river, considerable coal could be moved in the event of a shipping stage of water.

News of the Rivers.

Miss Mary C. Henderson, a daughter of Capt. James A. Henderson, has been ill for several days.

Capt. James A. Henderson and wife yesterday returned from New York, where the captain had been on business.

Pilot John L. Kerr, of the towboat Harvester, arrived from Cincinnati yesterday, at which place he left the boat tied up.

Capt. Wesley Connell, who recently suffered a stroke of paralysis while in command of the Morning Star, is reported improving.

Pilot Smooth Rose, who has had the misfortune to break one of his legs several times, was a caller at the pilots' headquarters yesterday.

All the injured members of the crew of the towboat John W. Ives, who are confined in Mercy hospital, are getting along nicely and are out of danger.

Capt. W. L. Stuart, who has charge of local government improvements, returned yesterday from Washington. Much business requiring his attention awaited him on his return home.

Riverman returning from Cincinnati report that the coal supply there is practically depleted. There are very few coal boats coming. The cold weather has caused the fuel to disappear at a lively rate.

Capt. Lyon Edwards, of the towboat Harry Brown and crew arrived in Pittsburgh yesterday by rail. The Brown will go through to New Orleans when navigation opens again. The boat has been as far as Cairo twice this season.

The Pittsburgh towboats are being forced to the bank on account of ice. The Tom Rees is tied up at Bueno Vista; the Pallie, at Peoples; the Sam Brown, Mollie Phelps, Hornet, Mayflower; Sam Clark and Tom Dodsworth, Kentucky River; Gleaner and Harvester, Cincinnati; Tornado, Sistersville; Harry Brown, Belpre.

Pilot Jack Wilson, of the towboat John W. Ives, which was wrecked by her boilers exploding several days ago, made his report to the local steamboat inspectors yesterday, giving the condition of the affair. He said that although allowed 165 pounds of steam by the gauge a short time before the accident showed that he carried but 135 to 140 pounds. Everything apparently was all right.

Capt. Samuel S. Brown was banqueted at the Hoffman house in New York last Friday, the day previous to his departure for the old world. The affair was arranged by his brother, Capt. Harry Brown, and was said to be one of the swellest affairs that was ever arranged at that famous hotel. The guests included besides Capt. Samuel Brown and his brother, Capt. Harry Brown, Capt. Thomas Brown, Capt. Michael Daugherty, D. I. Daugherty, assistant local boiler inspector of Pittsburgh, D. C. Ripley, D. L. Gillespie, Judge Orlady and M. W. Warren, of St. Louis and Jacob Bauer, of Cincinnati.

Third Ward (Allegheny) School Reunion.

It has been decided to hold a reunion of the teachers and pupils of the old Third ward school, North avenue, Allegheny, Pa., in the new school building on Thursday, March 20, 1902. Notices of this meeting have been sent to all those whose addresses we had when the reunion was held in September of 1900, many of which have been changed since that time. We desire to secure the names and addresses of all persons who are interested in this reunion and have them communicated with the corresponding secretary, Miss Alice Aiken, Edgewood park, Allegheny county, Pa., at the earliest convenience, so that the necessary arrangements can be made.

DIAMOND ALLEY TOUGHS MURDERD A STRANGE MAN

Four Persons Now Under Arrest Charged With Knowledge of the Crime.

HE WAS HELD UP TWICE

A misty veil enshrouds the murder of the man found in front of the Hotel Nuttridge in Diamond street at 4:15 o'clock yesterday morning. The police and detectives have been working on the case since the man was discovered dying from the effects of wounds on his head, but until a late hour last night they were not positive as to whom his assailants were, although four men are under arrest charged with the crime, having been last seen in the company of the murdered man.

A small piece of silver money covered with blood led to the arrest of the men who are supposed to have assaulted and robbed the dead man. It was passed over a bar for a drink of beer, and its telltale stain led to the arrest of the men now in jail charged with the crime of murder.

The four men last seen with the dead man and who are now in jail on the commitment of the coroner charged with murder are S. S. Raymond of No. 6342 Aurelia street, William Updegraff of No. 67 Millvale avenue, James Kain of Leechburg, and George Brown. Kain is thought to be from Chicago, as he told the barkeeper in the Schreiner house that he was engaged in business in the city and was selling her goods.

Registered from Cleveland.

"James Lorech of Cleveland" registered at the Red Lion hotel Sunday night. He went to his room shortly after his arrival. He had very little baggage, and only 25 cents with him. "I expect to get a check in the morning," he told the night clerk, as the porter showed him to his room. About 2 a. m. he came down to the office, saying that he could not sleep, as the rattle and bustle of the trolley cars startled him as they passed the hotel. He then passed out of the hotel and did not return. At the Red Lion hotel he was described as being about 50 years of age, and bald on the front of his head.

The dead man was identified at the morgue last night by Gustave Henning of No. 6216 Susquehanna street as Herman Larisch of Wellsburg, W. Va. Henning said that the dead man has a wife, three daughters and a son in Cleveland, O. A brother-in-law, Andrew Specht, lives in Whitman street, Cleveland. He said Larisch was a cabinetmaker.

The autopsy on the body showed that the man's death was due to a blood clot on the brain, and that his skull had been fractured above the left eye and on the back of the head, behind the right ear.

It was about 4:15 yesterday morning when the man was found dying on the pavement in front of the Hotel Nuttridge by a passing stranger. The police were called, and the dying man, with the blood streaming from his ears and nostrils, was carried into the restaurant of Edward C. Ogden, opposite the Hotel Nuttridge. He was laid on the floor in front of the show case until patrol wagon No. 1 arrived. Charles Sims, the night clerk, told Mr. Ogden that there had been no trouble near the restaurant during the evening, and that he was taken very much by surprise when the man was brought in. He was still breathing, and his face looked as if he had been struck by some instrument, or kicked by a heavy boot.

He was taken to the Homeopathic hospital, and upon the arrival of the ambulance there the doctors pronounced him dead. It was stated in Diamond street yesterday that the man was dead before he was placed in the ambulance by the police.

Many Toughs Abroad.

Two hours after the man was found there was a marked disposition on the part of persons in Diamond street to claim absolute ignorance of the case. An evil-looking crowd filled Porter's saloon, Men had been passing in and out of the place all night and there is little doubt that some of them know how the dead man met his end. The police are working on the case.

About 7:30 yesterday morning Larisch was brought to Central police station by officer James Grady of the Union depot. He gave his name as John Larisch of Cleveland, and stated that he had been in the city for several days stopping at the Red Lion hotel. Detective James E. Egan said yesterday that he understood the man was not intoxicated when he was brought to the station, but from his appearance he had been drinking considerably. The left side of his face was badly swollen, and his left eye discolored.

He told Detective Egan that he had been assaulted and robbed at the old Baltimore & Ohio railroad station, on Ross street, the previous afternoon by three negroes, and $35 and his overcoat taken from him. "I advised him," said Detective Egan, "to go back and have the sergeant give him a place to sleep, but he went out, and I heard no more of him until his body was found in Diamond street."

A short time later the dead man was seen in Diamond street. He was in the company of three other men, who are supposed to be those now under arrest. About 7 o'clock Larisch went into the all-night saloon of W. S. Porter in Diamond street.

Man Was Badly Injured.

Mr. Porter's brother-in-law, Edward Schenck, was on duty. Larisch was bleeding from the nose and ears, and the left side of his face was battered up. "He wanted to get a room," said Mr. Porter, "but had mistaken the place for a hotel. My brother-in-law told me this when I came to the saloon yesterday morning. Mr. Schenck advised him to go to a hospital, and when he asked for a drink refused him. Mr. Schenck told me that he came in alone, and went out alone. Blood was coming from his nose and ears, Mr. Schenck told me that when he left the saloon he told the barkeeper that he had been robbed and beaten up in the alley before he came in. I don't know where the man came from," continued Mr. Porter. "I was not on duty at the time, but my brother-in-law said that there was no one with him. It was about 4 o'clock when he came in, and 15 minutes after, he was found dead."

When the unconscious man was found the police were called and Lieut. James McEvoy and Officer Harry Reiley quickly responded. He was at once removed to the Homeopathic hospital and pursuit began. The three men last seen with the dead man were found at the Hotel Schreiner, where they had spent 35 cents for drinks. The bartender, Frank Pressler of No. 129 North St. Clair street, as soon as the officers had arrested the men and brought them into the hotel, opened the till and took out three dimes and a nickel which he said they had spent for beer. One of the dimes was covered with blood.

COAL BUSINESS ONLY SECOND TO STEEL TRAFFIC

Prosperity Gives Birth to New Companies in Pennsylvania and Ohio.

THE SUPPLY RUNNING

Production and Prices Both Larger Than Before — New Straw Board Combination—Standard Oil's Unavowed Envoy to Old World.

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Feb. 11.—The anthracite railroad stocks, especially Reading, are largely indebted, no doubt, to pool manipulation for their recent rise in market favor; but making due allowance for this, there still is left an extraordinary amount of genuine enthusiasm over the coal trade outlook.

Next to the steel trade that of coal seems to be the most pronouncedly prosperous of any in the country. The anthracite industry is in a stronger position today than perhaps ever before in its history. Large consumers are beginning to figure their requirements for the year beginning April 1, and these requirements are not only uncommonly large, but the prevailing prices of coal are high, and show no sign of a reaction. The present outlook, dealers say, is for a much heavier demand toward the latter end of February and throughout March.

Up to the Railroads.

The supply of coal now available in the market is barely sufficient to meet apparent demands, and not a few manufacturing concerns are understood to be a bit uneasy as to the prospect for getting adequate fuel supplies. Producing interests insist that it depends upon the railroad companies whether or not manufacturing interests are compelled to run short. Enough coal can be supplied, they say, to meet all demands, and the only question is to move it.

A representative of a large coal company said today that the earnings of the coal-producing companies, as well as those of the coal-carrying railroads, are larger than at any previous time in history. He added:

"The truth is that we are getting much higher prices for a much larger production. The prosperity we now are enjoying certainly will continue for another year at least, and the anthracite and bituminous coal companies ought to be able to show largely increased earnings."

Many New Companies.

The flourishing condition of the coal-carrying and coal-producing companies has attracted a vast amount of capital to the development of coal lines. In the Ohio and Pennsylvania districts alone, new coal companies with an aggregate capitalization of more than $100,000,000 have been formed within the past 12 months. The largest of these is the Pocahontas company, which was organized by the United States Steel Corporation, and then sold out to the Norfolk & Western.

Railroad companies will be compelled to make heavy expenditures for rolling stock in order to accommodate the increased production of coal. The Pennsylvania Railroad Company will add about 25,000 cars this year to its complement. A majority of these will be used for coal and iron.

New Strawboard Combination.

The United Box Board & Paper Company, which is the official designation of the combine in which it is proposed to merge two score or more manufacturing interests, will be incorporated some time in March in New Jersey. Its capitalization has not been definitely determined, but it will be something between $20,000,000 and $30,000,000. The business of organization is being conducted along the most conservative lines, and it is understood that very little stock will be offered to the public. Standard Oil interests are engaged in the project and will be large holders of stock in the new company. The New York banking house having charge of the preliminaries has supplied the American Strawboard Company's stockholders with the following statement:

The payment of the tangible property of the various vendors is to be made in preferred stock to the full agreed-upon value, provided such vendor will have shown earning of such tangible property. If such property should not have earned 8 per cent, then it will be entitled to payment in preferred stock to the amount upon which it has earned 8 per cent, and the balance of the tangible property will be paid in common stock. The payment for its good will or earning power will be in common stock, and such good will be determined as the amount in excess of 4 per cent which has been earned on the value of its tangible property, and such excess earnings will be capitalized on an 8 per cent basis. The preferred stock will be 7 per cent cumulative and will have preference as to assets in liquidation. The new company will issue no bonds, and the earnings of the new company will be, therefore, applicable directly and immediately to dividends on the stock, as the company will have no requirements for interest charges or sinking fund. Any existing bonds or mortgages on constituent companies will be provided for by the deposits of 10 per cent of the face of the preferred stock of the new company by the vendor of whose property it remains unliquidated.

In the case of the American Strawboard Company, in exchange of the stock of that company for that of the United Box Board Paper Company is contemplated, and the clause providing for a subscription to working capital will not become operative, but the same methods of valuation will be followed to determine the basis for exchange of stock.

Standard Oil's Envoy Abroad.

It was announced today that S. C. T. Dodd, general solicitor for the Standard Oil Company, had sailed for Europe to be gone three months. Mr. Dodd's mission abroad is a subject for speculation. Officially it is said he goes in quest of leisure and rest; but there is a suggestion that he will not neglect the foreign interests of the company. His going at this time is particularly significant, in view of the fact that the Standard Oil Company is engaged with an important commercial campaign, both in Russia and in the orient. Its main object is understood to be not so much the development of Russian properties as the curtailment of competition, and in any scheme involving the latter object Mr. Dodd would be a very valuable envoy.

The Standard Oil Company pays Mr. Dodd $25,000 a year for his services, and these involve his judgment on such matters of policy as are now pending in the Russian territory. It is not a wild surmise, therefore, that one of the objects of Mr. Dodd's trip to Europe is to get first-hand impressions of the situation abroad.

News From the Mines

[BY PRIVATE WIRE TO THE GAZETTE.]

NEW YORK, Feb. 11.—A correspondent at Dale, Cal., reports that John Burt has been sleeping for nine years in a tunnel alongside a five-foot ledge of $2,500 rock without knowing it. The fall of a piece of talc last week revealed the ledge.

Owing to the discovery of a large body of pay ore in the Adelaide, the smelter at Goldconda, Nev., will be enlarged to a daily capacity of 300 tons, and the working force of the mine will be largely increased.

A wide vein of cinnabar carrying a good percentage of gold has been found near Good Springs, Nev.

The Vindicator, at Cripple Creek, is maintaining an output of between 1,500 and 1,800 tons a month, the ore averaging $40.

A report that the 600-foot workings of the El Paso are flooded is officially denied. Bad air has caused suspension of work.

Thiele, Utah, reports that on the 200-foot level of the May Day, below the tunnel, a body of ore assaying 43 per cent copper and rich in gold and silver has been opened.

Leasers on the Columbia, near Ward, Col., are shipping seventy tons ore to the smelter. The E. & M. is shipping regularly and the grade of ore is improving. The last two cars $99 a ton.

An ore body three feet wide has been cut in the Hurricane, near Reno, Nev., which assays $40 gold and $4 silver a ton.

The State Line Copper Company reports a good strike in its property at Encampment, Wyo. It is said the vein matter will run 20 per cent copper.

A large vein of quartz has been discovered on a ranch near Kingman, Ariz. Samples show tin, lead and bismuth, and Los Angeles men are now having the ore tested in the hope of finding nickel.

The recent strike in the lower tunnel of the Golden Fleece at Lead City, S. D., is developing into a large body of ore. It is believed the ore chute lost after the heavy shipments from the upper levels in 1896 has been encountered.

The Metal Market.

The London market for tin was advanced 5s., which closed spot at £118 and futures at £108. The local market was also a shade higher, closing with spot at $24 55@24 75. Copper was firmer, but quiet. There were sellers at 12¾c for lake, 12⅝c for electrolytic and 12⅜c for casting. The London copper market was 2s 6d better, closing at £55 for spot and £54 15s 6d for futures. Lead at New York was firm, with spot quoted at $4 12½. London lead closed 1s 3d higher at £11 11s 2d. Spelter was steady here at $4 12½ and London closed unchanged at £17 12s 6d. Iron ruled firm at New York and unchanged. At Glasgow the market closed at 50s 1d and at Middlesboro 48s 11½d was the closing price. Pig iron warrants closed here at $11 50@12 50; No. 1 foundry northern, $16 75@18 00; No. 2 foundry northern, $16 25@17 25; No. 1 foundry southern soft, $16 25@16 75; No. 1 foundry southern soft, $16 25@16 75.

ADVANCES GIVE AN OPPORTUNITY FOR REALIZING

Profits Were Not Large, but Were Warmly Welcomed by Hungry Bulls.

TRADE GATHERS VOLUME

Speculators Showed a Disposition to Close Contracts Rather Than Carry Deals Over the Holiday—Developments Expected by the Sanguine.

[BY ASSOCIATED PRESS TO THE GAZETTE.]

NEW YORK, Feb. 11.—Today's stock market showed a further expansion in the dealings, and the great irregularity of the market continued. The selling side was rather better represented than yesterday, but many important stocks took up the advance at new points. The disposition to take profits was very natural on the eve of a holiday. There was obviously some misgiving also among speculative buyers lest the expectations of coming deals would not be realized. This was especially the case among the local traction stocks, where the glamor of the coming announcement of the Metropolitan street railway deal has suffered some decline. The anxiety on the subject was keener as an announcement of the plan is thought possible over the holiday. Recent sanguine expectations of benefits to accrue to the express companies from some sort of consolidation suffered some eclipse, as shown by the sharp drop of 7½ in United States Express, although the stock finally rallied 4½. American Express, after rising nearly 5 points, lost it again.

Accounting for Loan Expansion.

The speculative assumption that last week's huge loan expansion represented syndicate preparations for deals was subjected to careful scrutiny today and the opinion was developed that financial operations already known might abundantly account for the increased credits.

Subscriptions to $20,000,000 of Baltimore & Ohio bonds and to $10,000,000 of Pennsylvania Equipment Trust certificates, to say nothing of the acknowledged repayment on a large scale of foreign indebtedness to be replaced with New York banks, the Metropolitan street railway adjustment meant to provide $30,000,000, and preparations for the St. Louis Southwestern second mortgage readjustment, the new New York Central stock issue and that of the Canadian Pacific. There were, however, significant points of strength in the market.

Heavy Offerings of Steel Stocks.

The steel stocks were all very heavily bought on encouraging trade prospects, but the United States Steel stocks met enormous offerings at every slight advance. The late movement in Pennsylvania was regarded as an alternating movement with that in Southern Pacific and due to operations by the same interest. Texas & Pacific was advanced on the strength of the increase in the yearly disbursement on the company's second incomes. The cause of the strength in the Iowa Central stocks and the Minneapolis & St. Louis stocks was the supposed competition for control between Illinois Central and Stock Island. There was very large buying of Southern railway and Louisville & Nashville and of a number of stocks of comparatively small capitalization which was not explained.

Heavy Buying of Readings.

The buying of the Readings continued very large, but they showed the effect of profit taking. The industrials, as a rule, outside of the steel stocks and some of the gas stocks, were inclined to heaviness. Amalgamated Copper showed good recovery, but closed with a small net loss. The closing was active and irregular.

Business in bonds continued large and the price movement irregular. Total sales, par value, $4,900,000. United States new 4's advanced ½ per cent on the last call.

PRICES WERE IMPROVED

A Few Bits of Bullish News Helped the Situation All Around—Northwestern Receipts Light — Southwest Complains About Crops.

[ASSOCIATED PRESS DISPATCH TO THE GAZETTE.]

CHICAGO, Feb. 11.—Possibly adverse quotations in the grain pits were what happen during tomorrow's holiday on the board, but in general covering and with a few bits of bullish news, helped toward better prices all around. May wheat registered a net gain of 1½@1⅝c, May corn 1c and May oats 1@1¼c. Provisions closed a shade to 10c higher.

Trade in wheat was active and in the same run of the past week. Early realizing was divided rather evenly between the opposing forces and it was largest on the evening up over tomorrow's holiday. Without any very tangible reason for it, the country strength then held to the extent. Northwestern receipts were light, but advices had it that there was plenty of wheat there that would soon come out. Reports from Oklahoma and Kansas were unfavorable for the winter crop and were regarded rarely as the forerunners of a long series of complaints about crop shortage that will appear during the spring.

Corn and Oats Develop Strength.

Some strength developed early in corn and oats, and when Northwest reported a decrease in the world's visible supply of 3,677,000 bushels compared to a large increase a year ago, wheat was helped upward. Trade on the whole was quiet, but that does was probably due to tomorrow's holiday. Liverpool cables were steady to start with but eased off. Bearish influences, such as a light export demand, and a good crop report from Missouri, served to restrain the advance somewhat. May opened a shade to 1c up at 77@77¼c, touched 78c, and then declined back to the opening price again on corn and oats but soon got their strength. Later there was a revival of good feeling and May closed firm at the top figure, 1@1⅛c higher, at 78¼c.

Receipts of Wheat.

Local receipts were only 10 cars. Minneapolis and Duluth reported 215 cars, making a total for the three points of 240, against 342 the previous week. This day last year was a holiday. Sedberry 113 cars of wheat and flour equaled 113,000 bushels. Primary receipts were 1,000,000 bushels.

There was a rush at the opening, on lower cables and some forced selling for St. Louis account was distributed for some time and the northwest began turning weakish, sending in some decent news, which helped to the 2d best market of the day. Shortly after the opening corn was strengthened by reports of fair sales at better prices for the seaboard. Covering and the better tone to what sale were did here to push prices upward 2@2½c, which was the best of the day. Shortly after the opening oats was strengthened by reports of fair sales at better prices for the seaboard. Covering and the better tone to what sale were did here to push prices upward 2@2½c, which was the best of the day. Shortly after the opening oats was strengthened by reports of fair sales at better prices for the seaboard. Covering and the better tone to what sale were did here to push prices upward 2@2½c, which was the best of the day. Receipts were 102 cars. Outs practically made up all their arrival loss on greatly local conditions. The gain was on the overcold rendering of the markets after yesterday's raid and another attempt at the same tactics, aside this morning, were converted into short covering and helped prices up 1@1¼c. Receipts were 186 cars.

Provisions Were Strong.

In spite of big general receipts, provisions were strong. Opening prices were lower with the lower hog market and some early selling for packers. But a good cash demand from Boston helped to bring about a strong feeling and May closed firm at the top figure, 5@7½c higher, at 7½@7¾c.

Local Stocks Quieter, but Market Was Firmer at Higher Prices

ANOTHER JUMP IN THE PRICE OF MEMBERSHIPS

The Oldest Broker Sells His Seat in the Exchange for $9,125.

TRUST SHARES STRONG

The Steel Stocks Quiet, but Firmer and Higher—Fire Proofing Issues Declined—Pittsburgh Coal Shares Firm—Bonds Firmer.

The market on the Pittsburgh stock exchange yesterday was less active than that of the day before, the sales amounting to not quite 9,000 shares, with $31,000 bonds additional. There was not a great deal of interest attached to the proceedings, though the close was generally firmer at higher prices. The dullness was probably due to the fact that today is a legal holiday in honor of Lincoln's birth, and the exchanges and banks of the country will be closed. A feature of the business was the sale of a membership in the exchange for $9,125—a new high record and an advance of $125 since Saturday. The seat was that of John S. Fisher, probably the oldest holder of an exchange seat in Pittsburgh, he having started in the business over 25 years ago. H. M. Long, the first president of the Pittsburgh stock exchange, made the deal. This clinches Pittsburgh's hold on third place in the United States for the value of its seats more strongly than ever. Ten thousand dollars is predicted before the month is out.

In the sales of securities the greatest strength was manifested in the banking group. Exchange National advanced 1½ to 86½. American Trust 5 to 135. Colonial Trust 10 to 310 (a new high record). Guarantee Title & Trust 1 to 130, and Real Estate Trust 6 to 266. Third National bank of Allegheny was advanced $5 to $225 bid, a new high record, but no stock offered. The steel stocks were quite firm, but the sales were small. Crucible common gained ⅛ and the preferred ¼, while United States Steel common went up ⅜ to 44¾. About 1,000 shares of the latter offered at the close at 44⅝ without bids. Fire Proofing issues were dull and rather heavy, the common declining ½ to 38½ and the preferred ⅝ to 47½. River Coal common lost ⅛ at 18⅞ for 345 shares. The offerings at 14 aggregated almost if not quite 6,000 shares and the appearance of so much stock for sale at Monday's price was enough to prevent any advance. Pittsburgh Coal common was firm but unchanged at 26 and in good demand ¼ lower. Less than 900 shares sold. The preferred, on sales of about 400 shares, advanced ⅝ to 90¾. The report of the company had not been sufficiently digested by the public to have much effect on the market for the stock, though it was generally thought to be strengthening. Philadelphia Company common was quite active and firmer and ¼ higher at 47⅛. 1,300 shares selling. The preferred was also firm at 45@45½ for 125 shares. Electric seconds advanced ⅝ to 88⅝, and the firsts an equal amount to 90. Airbrake was dull and neglected. Switch & Signal issues were also dull and unchanged. Allegheny Valley Railroad preferred was firmer and in good demand, 10 shares only coming out, however. Bonds were fairly active and steady to firm.

Financial Drift.

Allegheny National bank advanced to 116½ bid.

Just before the close 15 Prudential Trust offered at 145.

For Federal National bank $135 was bid and $140 asked.

Citizens National bank advanced to 88 bid, the record price.

Hill bid 25¾ for 500 Pittsburgh Coal during the last half hour.

Hill & Co. were the principal buyers of Pittsburgh Coal common.

Before the close Carothers & Co. offered 500 United States Steel common at 44⅝.

Lyman J. Gage has accepted the presidency of the United States Trust Company.

The New York banks have retained $344,000 from the last week's shipments.

Near the finish there were aggregate orders to sell 1,000 River Coal common at 19.

Sproul & Co. bid 4¼ for 500 Marsden near the close and offered that much at 4½.

Inside buying is reported in the United States Steel issues, especially the preferred.

First National bank of Wilkinsburg continued its 85 a day advance by quoting up to 425 bid.

Some attention has been paid to bullish talk in reference to the Kansas City Southern securities.

The plan for financing the Metropolitan improvements business will probably be given out today.

It is reported that a powerful bull pool has been formed to operate in the Baltimore & Ohio stocks.

Foreign exchange is firm for demand sterling, but no gold exports are expected to occur this week.

At the opening about 5,500 shares of River Coal common were offered at 19. The offers ran from 3,000 to 100-share lots.

It is reported that J. P. Morgan says United States Steel common and preferred will sell much higher before this year ends.

Colonial Trust was quoted at 300 bid and 310 asked. Then 25 sold at 310, and that price was bid for 25 more with 325 asked.

F. L. Stephenson has transferred his membership in the Pittsburgh stock exchange, contingent upon the application for initiation.

Near the close 1,000 Trade Dollar Mining offered by R. C. Hall at $1.90. McFarlane bid $1.65 for 1,000. Then $1.67 was bid and $1.75 asked for 1,000 by W. A. McCutcheon.

Southern Pacific suffered from the profit taking process, there being ups in circulation to 68, and a stock for a good reaction which had an effect upon weak speculative holders.

During the first half hour the most active trading was in Philadelphia Company issues, one house selling 1,000 common and another one hundred preferred, the latter of the preferred disposed of 400 more.

The stockholders of the Metropolitan Plate Glass Insurance Company have voted to increase its capital stock from $100,000 to $200,000, and a cash dividend of 100 per cent, will be declared from the surplus for this purpose.

A New York broker writes: "I do not believe that the A. C. P. Company will pass the next dividend, as some time before the meeting and many things can happen between now and then. While I do not advise buying the stock, I would not sell it."

John S. Fisher, probably the oldest member of any local exchange, yesterday sold his seat on the Pittsburgh stock exchanges for $9,125 to W. S. Patrick, Henry M. Long acting for Mr. Fisher. The price is a jump of $125 since Saturday and a new high record.

The stockholders of the Empire Coal Mining Company of West Virginia held their annual meeting yesterday and elected Thomas H. Hubbard, Cleveland; Thomas H. Hubbard, Jr., Cleveland; W. P. DeArmitt, J. R. Paull, Isaac W. Frank, Thomas H. Bakewell, D. E. Park, W. L. Kann and Jesse H. Sanford. Mr. Bakewell is the only new member.

John D. Bailey's auction sale of stocks, held at 3:30 yesterday on the Pittsburgh stock exchange, resulted in the following sales: Exchange Bank, 5 shares National bank, at 86½; 24 same at 86¾; 73 shares Citizens National bank, at 90; 10 shares M. & M. National bank, at 138¾; 14 shares People's National bank, at 125; 5 shares Bank of Pittsburgh, National association, at 154½; 11 shares Pennsylvania Railroad, at 75¾, and $5,000 Irwin-Manor Fuel and Gas Light 6s, at 97½ per cent.

As inquiry is always now what were the features of the market on the Pittsburgh stock exchange a year ago Monday, making that the most exciting and the largest day's business ever witnessed? The feature was heavy selling of Crucible Steel common, which sold 12,415 shares at 28@25⅞. The preferred sold 4,228 shares at 81@82¼. Pittsburgh Coal common sold 2,258 shares at 39@37. Pittsburgh Coal preferred sold 2,057 at 87¾@88¾. River Coal common sold 10,020 at 10½@11⅛ and the preferred 450 at 42½@43. The next most active issue was Pittsburgh Brewing, which sold 1,350 shares at 25½. The other sales tapered down in 500 and 100 share lots.

Earnings and Reports.

MOUNT GRETNA FOR ARMY POST AND CAMP SITE

Grounds Will Include a Large Part of the Adjacent Conewago Valley.

MILLION WILL BE SPENT

Locations for Similar Purposes Selected in Other Parts of the Union. Full Regiment of Infantry to Be Quartered in Pennsylvania.

THE PITTSBURGH GAZETTE BUREAU, 906 Fifteenth St., N. W., WASHINGTON, D. C., Feb. 11.

As predicted in these dispatches, the board of high army officers designated to select sites for the four camps of instruction and for new military posts have selected one of the sites for the camps of instruction in Pennsylvania, and also a Pennsylvania site for a new regimental post of the army.

The tracts at Somerset and other points offered all were passed over as not being conveniently located, and the old Mt. Gretna camp site was selected, not only for the camp of instruction, but for an army post to accommodate a full regiment of infantry. As the old camp at Mt. Gretna was not large enough, the board recommended the purchase of that camp and additional acres of land in the Conewago valley, in the counties of Lebanon, Dauphin and Lancaster.

Where Conewago Is.

Conewago junction is 18 miles east of Harrisburg on the main line of the Pennsylvania railroad. It connects there with the Cornwall & Lebanon railroad, running between the junction and the city of Lebanon—26 miles. Mt. Gretna is in this valley.

The plan for these camps is on a large scale, as it is proposed to have 50,000 men, selected from the national guards of the eastern states, encamp there for two weeks each summer and receive instruction from the regular army officers. In addition quarters are to be constructed for one full regiment of infantry, which will be quartered there all the year round. Thus the guardsmen can be compared with the regulars in their drills.

Owing to the large scope of the plan it was necessary that the camp selected should be on level ground, with a good water supply and be advantageously located near railroads, as it will be quite a task to land 50,000 men in camp in one day and remove them on another day at the close of the encampment. The site selected is well chosen, being on the main line of the Pennsylvania railroad and but a short distance from the main line of the Reading railroad. The Reading has agreed to put a branch line into the camp.

This camp will require about 5,000 acres, and as the land in that section is held at about $200 an acre, it will be seen that the government expects to spend over $1,000,000 in securing the site and building the necessary quarters.

Arsenal Question Postponed.

The board did not consider the question of the disposition of the Allegheny arsenal in Pittsburgh, but it is believed it will be turned over to Quartermaster General Ludington to be used as a depot for quartermaster's stores.

Other sites selected for army posts were: One for a regiment of infantry in the vicinity of Los Angeles, Cal.; one for a regiment of cavalry on the camp site of the Nacimento ranch; one for a regiment of infantry in the vicinity of Albuquerque, N. M., one for a regiment of infantry, at Governor's island, New York harbor; one for a regiment of infantry in the vicinity of Washington, north of the Potomac river; one for a battalion of infantry in the Red river valley, in the vicinity of Cpokaston.

Other camps decided upon were: Vicinity of Chickamauga park; Fort Riley, Kan.; one on the Nacimento ranch, in Monterey and San Luis Obispo counties, Cal. CHARLES W. METZGAR.

In Allegheny County the Geological Survey Gives Green Tree That Distinction.

WASHINGTON, D. C., Feb. 11.—(Special.)—Representative Acheson this morning called at the geological survey office and found that good progress had been made in the survey of Washington, Allegheny and adjacent counties. He was furnished with a map showing the survey in about one-fourth of Washington county. All the roads, streams as well as others, are clearly shown on the map as well as the altitudes of the hills.

Mount Wheeler is the highest hill in Washington county, having an altitude of 1,523 feet above sea level. Scenery hill is 1,486 feet; Herron's hill, 1,410 feet, and Lution's hill, 1,447 feet. The foundation walls of Washington county court house are 1,148 feet above the level. In Allegheny county, Green Tree hill is the highest, having an altitude of 1,207 feet above sea level, and 600 feet above the junction of the Allegheny and Monongahela rivers, nearby.

PHILLIPS JOINS STANDARD RIVAL AND LOSES MONEY

Secret of Industrial Commissioner's Attack on Standard Oil Company.

SOLD GILT-EDGED STOCK

Had He Held It Until Now He Would Have Received $1,625,000 for His Shares Instead of $412,000 — Out About $2,000,000.

NEW YORK, Feb. 11.—Mr. William Rockefeller's attention was called yesterday to the minority report of Thomas W. Phillips of the industrial commission, published in the Herald in which methods of the Standard Oil Company were criticised.

Mr. Rockefeller said he did not care to discuss the statement, except to say that so far as it referred to the Standard Oil Company it was untrue and in direct contradiction to the great weight of testimony given before the commission. It was so unfair and untrue, Mr. Rockefeller said, that Mr. Phillips could not induce any one of the other 14 members of the commission to join him in his attack on the Standard Oil Company.

Has Always Been Hostile.

"Mr. Phillips," Mr. Rockefeller added, "has been hostile to the Standard Oil Company for a number of years. In 1881 he was the owner of oil producing properties in Pennsylvania which he sold to the Standard Oil Company and received in part payment therefor 2,500 shares of stock of the company at about $100 per share. At the time he sold his properties to the company it was understood that he would not sell his stock and from that time on he would act in harmony with the company. He did not comply with this understanding, but in the course of two years after he received the stock he sold it at an average price of about $165 per share, realizing for all his stock in the neighborhood of $412,000.

Mr. Phillips' Lost Opportunity.

"About this time Mr. Phillips became interested in a rival organization engaged in the same kind of business as the Standard Oil Company. His investment in the new venture, according to the testimony given before the industrial commission, has not been profitable. Dividends have been very small and few and far between.

"Mr. Phillips, in his statement, refers to the dividends paid by the Standard Oil Company. It is difficult for Mr. Phillips to get these dividends out of his mind, and I do not wonder. If he had lived up to his agreement and acted in harmony with the Standard Oil Company he would have received upon his stock in dividends about $700,000, and his stock would have been worth at the present time $1,625,000. He has lost about $2,000,000 by violating his understanding and joining a rival organization hence his malice toward the Standard Oil Company."

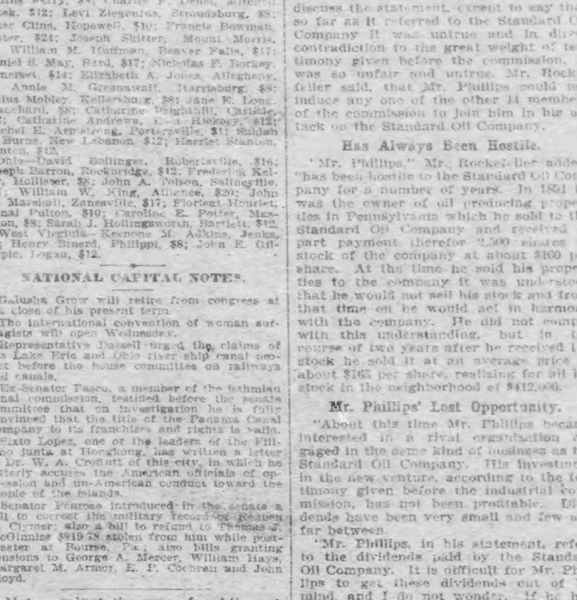
NURSING MOTHERS
Find Strength in
JOHANN HOFF'S EXTRACT



Every mother should read the following from Dr. McManaway, of Charlotte, N. C.

Messrs Eisner & Mendelson Co.

I am prompted to hand you herewith a photograph of a baby whose physical condition is due to the use of Johann Hoff's Extract given to the mother during lactation.

During the nursing of her first born, the mother was so completely prostrated, because of the drain on her system, that it was with difficulty that either mother or child was saved. During this last lactation, the mother's condition remained good. The photograph shows condition of child at the age of four months and five days.

C. G. McManaway, M. D.

What a constant drain upon her strength the nursing mother sustains! How vitally important is robust health—important to mother and important to child.

Is there any time in a woman's life, when perfect digestion is so absolutely essential?

The peculiar fitness of Johann Hoff's Extract for sustaining a nursing mother's strength is well known.

In the old countries of northern Europe, whence the hardiest sons and daughters come, Johann Hoff's Extract has been used by nursing mothers for over half a century. Nothing equals it in simplicity of action or in certainty of good results. American mothers would do well to understand how easy it is to get the help they need for the drains upon their strength.

Healthy women are few in these days of strenuous living, overwork, worry, household cares, society duties, one or more which falls to the lot of every woman, make inroads upon the female constitution that are bound to result in serious trouble unless guarded against.

It is much more important that women should safeguard their health than it is for the other sex; first, because their organization is more delicate, and second, because on them depends the health of future generations.

A wineglassful of Johann Hoff's Extract taken regularly with meals is the best health insurance a woman can have.

Insist upon Johann Hoff's Extract and take none of the cheap substitutes offered as "just as good." They have nothing but their cheapness to recommend them. EISNER & MENDELSON CO., Sole Agents, New York.

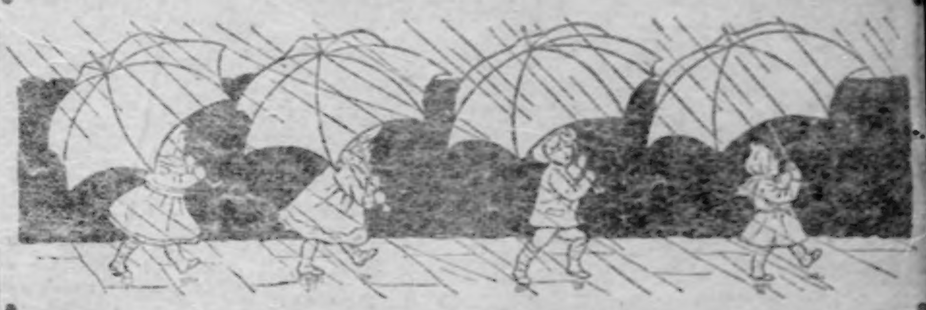
KAUFMANN'S
"THE BIG STORE"

Mill and Factory Sale.

The big throngs of buyers here Monday and Tuesday prove the deep public interest in our Annual Mill and Factory Sale. Experience has taught the people that they can save one-fourth, one-third, one-half and, in some cases, even two-thirds, by taking advantage of these sales, which overstocked manufacturers and importers, throughout the country, regard as the most effective means to market their surplus stocks. Every day this week will be pregnant with surprises for shrewd shoppers. A score of men are busy opening cases and casks and boxes and bales. New goods, fresh from the hands of the makers, are placed on sale hourly. These, then, are the days to save money. You can't come too early or too often.



Purchase of 5,000 Umbrellas.

They come from one of the best manufacturers, too, and were sold to us at a sacrifice only because the manufacturer preferred to take a big loss and sell to one large Cash Buyer, to the worry, expense and uncertainty of sending traveling men out to dispose of the goods in small lots. But come in and see the Umbrellas. No old or shopworn styles among them. All are new, bright, fresh goods, and, in order to make selections easy, we have divided the entire stock into these three lots, to be

Offered at 45c On the Dollar.
